### **Section 8 — Other Events.**

#### **Item 8.01. Other Events.**

As previously announced, on December 20, 2004, Exelon Corporation (“Exelon”) and Public Service Enterprise Group Incorporated (“PSEG”) entered into an Agreement and Plan of Merger (the “Merger Agreement”), pursuant to which PSEG will merge with and into Exelon with Exelon continuing as the surviving corporation (the “Merger”). Completion of the Merger is subject to a number of conditions, including the approval of shareholders and a number of governmental authorities.

There are numerous regulatory approvals or other regulatory actions required to consummate the Merger, including those described in this Report on Form 8-K. In February 2005, Exelon and PSEG filed applications with the Federal Energy Regulatory Commission (“FERC”), the New Jersey Board of Public Utilities (“NJBPU”) and the Pennsylvania Public Utility Commission (“PAPUC”), and filed a joint proxy statement/prospectus with the Securities and Exchange Commission (“SEC”) related to proxy solicitation for shareholder approval of the Merger and the issuance of shares by Exelon. Exelon also provided notice of the proposed Merger to the Illinois Commerce Commission (“ICC”). In March, Exelon and PSEG filed applications or made filings with the Nuclear Regulatory Commission (“NRC”), the United States Department of Justice (“DOJ”), the New York Public Service Commission, the Connecticut Siting Council, the New Jersey Department of Environmental Protection (“NJDEP”) and with the SEC under the Public Utility Holding Company Act (“PUHCA”). Additional applications and notices will be filed in the coming months.

On February 23, 2005, at a meeting of its Electricity Policy Committee, the ICC’s General Counsel confirmed that the ICC does not have jurisdiction over the matter and thus its approval is not required for the Merger. On March 16, 2005, Exelon and PSEG obtained approval of matters relating to the Merger from the Connecticut Siting Council under Connecticut public utility law.

On March 4, 2005, Exelon and PSEG made the filings required under the Hart-Scott-Rodino Antitrust Improvements Act of 1976 (“HSR”). On March 23, Exelon and PSEG received a letter from the Antitrust Division of the DOJ requesting additional information pertaining to the Merger. Exelon and PSEG intend to respond promptly to the request for additional information. The formal request for additional, specific information supplements information already provided in the original HSR filing. The DOJ request extends the waiting period under HSR, and the period of DOJ review of the proposed Merger, for a period of 30 days after Exelon and PSEG provide the information requested by DOJ. The extension of the HSR waiting period is not expected to impact the anticipated closing date of the Merger.

On March 30, 2005, the administrative law judge in the proceeding before the PAPUC issued a prehearing order establishing a timetable for the regulatory approval process in Pennsylvania, which provides for the administrative law judge to issue an initial decision on November 7, 2005. Thereafter, a decision of the full PAPUC can be expected in December 2005 or January 2006. The procedural schedule to be followed during the course of the administrative process before the PAPUC resulted from an agreement among Exelon, PSEG and numerous parties in the case, including the PAPUC Office of Trial Staff and the Pennsylvania Office of Consumer Advocate.

On April 5, 2005, the administrative law judge in the proceeding before the NJBPU issued a prehearing order establishing a timetable for the regulatory approval process in New Jersey. The order provides for the administrative law judge to issue an initial decision by February 26, 2006. Thereafter, pursuant to the provision of the New Jersey Administrative Procedure Act, a decision of the full NJBPU could reasonably be expected by approximately March 23, 2006. The procedural schedule resulted from an agreement among Exelon, PSEG, the NJBPU staff, and the New Jersey Ratepayer Advocate pertaining to the procedural schedule to be followed during the course of the administrative process before the NJBPU.

The procedural schedules for both the PAPUC and NJBPU proceedings include opportunities for settlement discussions among the parties during the course of the proceeding. Exelon and PSEG will endeavor to

settle differences of opinion among the administrative litigants during the course of the proceedings if they are able to do so on satisfactory terms. Any such settlements could allow for earlier approval of the Merger.

When Exelon and PSEG announced the merger agreement on December 20, 2004, they indicated that they expected to close the transaction in 12-15 months. The companies believe that this objective is reasonably achievable assuming Exelon and PSEG are able to reach settlements with interested parties that are approved by the PAPUC and NJBPU. If settlements are not reached, the companies expect that, assuming all other conditions to completion of the Merger are satisfied, the closing of the Merger will occur early in the second quarter of 2006.

The filings with the NRC, NJDEP and SEC under PUHCA remain pending and currently are not expected to impact the anticipated closing date of the Merger. In addition, Exelon and PSEG currently expect that the FERC schedule will not impact the anticipated timing of closing of the Merger. However, the NJBPU has intervened and requested that FERC hold a hearing on the application relating to the Merger. If FERC were to hold hearings with respect to the Merger the approval process would extend the anticipated closing into mid-2006 or perhaps later.

Although Exelon and PSEG believe that the expectations as to timing for the closing of the Merger described above are reasonable, no assurances can be given as to the timing of the receipt of any required regulatory approvals or that all required approvals will be received.

the companies expect; (9) the businesses of the companies may suffer as a result of uncertainty surrounding the merger; (10) the companies may experience more difficulties than expected in achieving operating improvements at jointly owned nuclear generating facilities; (11) the companies may not realize the values expected to be obtained for properties expected or required to be divested; (12) the industry may be subject to future regulatory or legislative actions that could adversely affect the companies; and (13) the companies may be adversely affected by other economic, business, and/or competitive factors. In light of these risks, uncertainties, assumptions and factors, the forward-looking events discussed in this Filing may not occur. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this Filing.
