Forward-Looking Statements

This presentation includes forward-looking statements. These forward-looking statements include, for example, statements regarding benefits of the proposed merger, integration plans and expected synergies. There are a number of risks and uncertainties that could cause actual results to differ materially from the forward-looking statements made herein. The factors that could cause actual results to differ materially from these forward-looking statements include Exelon's ability to achieve the synergies contemplated by the proposed transaction, Exelon's ability to promptly and effectively integrate the businesses of NRG and Exelon, and the timing to consummate the proposed transaction and obtain required regulatory approvals as well as those discussed in (1) Exelon's 2007 Annual Report on Form 10-K in (a) ITEM 1A. Risk Factors, (b) ITEM 7. Management's Discussion and Analysis of Financial Condition and Results of Operations and (c) ITEM 8. Financial Statements and Supplementary Data: Note 19; (2) Exelon's Third Quarter 2008 Quarterly Report on Form 10-Q in (a) Part II, Other Information, ITEM 1A. Risk Factors and (b) Part I, FinancialInformation, ITEM1. FinancialStatements: Note 12; (3) Exelon'spreliminary prospectus/offer to exchange that is contained in the Registration Statement on Form S-4 (Reg. No. 333-155278) that Exelon has filed with the SEC in connection with the offer; and (4) other factors discussed in Exelon's filings with the SEC. Readers are cautioned not to place undue reliance on these forward-looking statements, which apply only as of the date of this filing. Exelon does not undertake any obligation to publicly release any revision to its forward-looking statements to reflect events or circumstances after the date of this filing, except as required by

Statements made in connection with the exchange offer are not subject to the safe harbor protections provided to forward-looking statements under the Private Securities Litigation Reform Act of 1995.

All information in this presentation concerning NRG, including its business, operations, and financial results, was obtained from public sources. While Exelon has no knowledge that any such information is inaccurate or incomplete, Exelon has not had the opportunity to verify any of that information.

Committed to Execution

Strong Initial Exchange Offer Results

We remain committed to and are moving forward with the transaction

- As of January^t6, 45.6% of NRG shares had been tendered into the exchange offer
 - Many NRG shareholders have informed Exelon they want to see meaningful discussions, and due diligence, sooner rather than later
 - NRG board and management appear not to have heard the message sent by the very large contingent of shareholders that have already tendered into our exchange offer
- Exchange offer extended until Februaryth25
 - Seeking highest possible level of NRG shareholder support to facilitate a negotiated transaction between Exelon and NRG

Initial tender results demonstrate strong support for an EXC / NRG combination

Moving Forward with Proxy Solicitation

- Pursuing, and soliciting proxies for, two shareholder actions at NRG annual meeting
 - Proposed an expansion of the NRG board from 12 to 19 directors
 - Nominated nine well-qualified, independent candidates who we believe will act in the best interest of NRG and the NRG shareholders
- Encouraging NRG shareholders to support the proposed slate
 - Materials will be sent to NRG shareholders, including a proxy and instructions on how to vote for the slate of new directors
 - Vote will take place at the NRG annual shareholder meeting, likely to occur in May or June

NRG shareholders deserve independent, well-qualified NRG directors to act in their best interest

Making Progress on Regulatory Approvals

- Initial filings have been made with the following:
 - FERC (Docket #EC09-32-000)
 - Hart-Scott-Rodino (DOJ/FTC)
 - Request for additional information was issued by the DOJ on January 16 , extending HSR waiting period
 - · State regulatory commissions, including
 - Texas (Docket #36555)
 - New York (Docket #08 E 1486)
- Filings will also be made with the following:
 - NRC
 - · Pennsylvania and California state regulatory commissions
 - Various state sitingcommissions
 - · Notice filing in Illinois

Regulatory hurdles are manageable

1. As of January 29, 2009

Financing Is Not an Obstacle

- Believe we can obtain committed financing for the entire ~\$8 billion of NRG debt, if needed, at the appropriate time
 - Decision to defer commitments allows us to take advantage of improving credit markets
 - Exelon's relationships with many of NRG's banks should facilitate arrangements for new credit facilities when current conflicts are eliminated
- Believe a negotiated combination can be structured in a way to reduce refinancing requirements to \$4B or less
 - We believe that the contemplated structure would not trigger the change of control provision for NRG's \$4.7B of Senior Notes, and would substantially improve credit metrics for those bondholders

Reflecting our confidence that we can obtain committed financing at the appropriate time, our offer is not subject to a financing condition

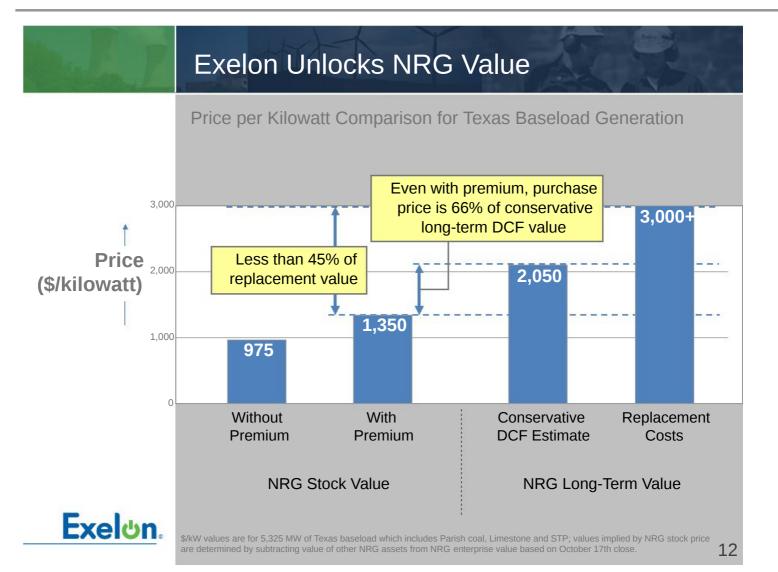

Compelling Value for NRG Shareholders

- Full and generous priceupfront premium of 37%
- Tax-free opportunity to participate in the future growth of the largest and most diversified US power company, with a substantially improved credit profile and access to liquidity
 - · Requisite scope, scale and financial strength
 - Stronger credit metrics and investment grade balance sheet
 - Best-in-class nuclear and fossil operations
 - Low-cost generator, operating in the most attractive markets
 - Exelon 2020 principles will be adapted to the combined fleet
- Potential for substantial synergies
- Manageable regulatory hurdles to close

Combination Expected to Create Substantial Synergies

NRG Shareholders Capture Value

Creates compelling value for NRG shareholders today and allows them to share in growth of Exelon stock.

Value Creation to NRG Shareholders (\$ billions)

Excludes transaction and other costs of \$654 million and excludes increased interest expense related to refinancing of NRG debt.

- 1. Assumes 275M diluted shares outstanding.
- 2. Assumes an offer price of \$26.43; 37% premium to 10/17/08 dose price; 275M shares outstanding.
- 3. Value of synergies to NRG shareholders based on proportionate ownership of combined entity. Synergies estimate based on mid point of \$1.5 billion \$3.0 billion.
- 4. Additional upside defined as the value that is created if both companies' stocks simultaneously reach their respective 52-week high prices (EXC: \$92.13, NRG: \$45.78).

Percent Contribution of Free Cash Flow

- NRG states they contribute 30% of the free cash flow while getting 17% ownership of the pro-forma company based on offe¹
- NRG's position is only a 2008 calculation
- Ignores PECO PPA roll-off in 2011 and Exelon carbon uplift
- Factoring in these two omitted pieces for 2008, NRG's free cash flow contribution of the pro-forma company would be 15-17% for 2008

- 1. NRG's 12/1/2008 "NRG's Path to Shareholder Values'entation, slide 4. Implied ownership based on a 0.485x exchange ratio
- 2. PECO PPA assumes market prices as of 11/30/2008. Assumes carbon at \$10-20 per tonne. Not necessarily representative of either company's internal forecast or indicative of results for any other year.

Combination Will Result in Scope, Scale and Financial Strength

Combined company expected to have requisite scope, scale and financial strength to succeed in an increasingly volatile energy market

Credit Ratings Are a Valuation Differentiator

Investment grade credit ratings provide access to capital markets for growth capital and minimize collateral requirements which maximizes liquidity and contributes to superior valuations in difficult markets

Multiples of non-investment grade peers have fallen approximately 40%, whereas multiples of EXC and its investment grade peers have fallen less than 15%

Average Multiples (x)	2007	2008
Investment Grade	7.7	6.8
Non-Investment Grade	9.6	5.6

Stable, Predictable Cash Flow Is Awarded Premium Valuation

Exelon's strong, diversified cash flow streams have provided for a more stable valuation during periods of depressed commodity valuations and/or market turbulence. We believe the market will likely discount NRG's standalone growth prospects given the potential cost to finance its development projects.

Clear Value under Multiple Scenarios

We look at fundamental value creation under a wide range of future commodity price scenarios and our analysis suggests \$1-3 billion of value, possibly more.

Gas price is long-term price in 2008 \$/MMBtu; coal price is long-term price in 2008 \$/ton for PRB8800 excluding transportation; new build cost is long-term combined cycle cost in PJM in 2008 overnight \$/kW; carbon year is year in which national cap and trade starts; carbon price is in 2012 \$/tonne assuming 7% escalation; moderate recession assumes conditions consistent with current forward prices; and severe recession assumes five years of no load growth.

Exelon More Than Meets the "Five Imperatives" Outlined by NRG on May 28, 200

NRG's Stated Imperatives

Exelon Combination More than Meets These Imperatives

1.	MUSTaccumulategeneration at competitive cost	Deal expected to provide NRG stakeholders with significant value and upside and a share of the largest unregulated generation fleet in the United States.
2.	MUSTbe geographically diversified in multiple markets	NRG stakeholders become part of the most diversified and competitive generation portfolio operating in 12 different states and 6 different regional transmission organizations.
3.	MUSTdevelop and expand our route to market through contracting with retail load providers, trading, direct sales, etc	Exelon's breadth of operations and depth of service allows significant access to customers, retail providers, and other sales channels.

MUSThave sophisticated ability to trade, procure, hedge, and originate for electricity and input fuels

Exelon provides NRG stakeholders with broad trading expertise and sound power marketing and risk management practices. Exelon's significant experience in markets with locational prices is particularly relevant since ERCOT is moving to a PJM-type structure.

MUSTdevelop depth and breadth in key markets, particularly across fuel types, transmission constraints and merit order

This transaction accomplishes in one step what several transactions might have accomplished for NRG in these regards. Given the current difficulty in accessing capital markets, it is unclear whether NRG would have the ability to meet this objective without Exelon.
