Item 12. Results of Operations and Financial Condition

On October 23, 2003, Exelon Corporation (Exelon) announced via press release Exelon's results for its third quarter ended September 30, 2003. A copy of Exelon's press release is attached hereto as Exhibit 99. This Form 8-K and the attached exhibit are provided under Item 12 of Form 8-K and are furnished to, but not filed with, the Securities and Exchange Commission.

This combined Form 8-K is being furnished separately by Exelon, Commonwealth Edison Company (ComEd), PECO Energy Company (PECO) and Exelon Generation Company, LLC (Generation) (Registrants). Information contained herein relating to any individual registrant has been filed by such registrant on its own behalf. No registrant makes any representation as to information relating to any other registrant.

Except for the historical information contained herein, certain of the matters discussed in this Report are forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, that are subject to risks and uncertainties. The factors that could cause actual results to differ materially from the forward-looking statements made by a registrant include those factors discussed herein, as well as the items discussed in (a) the Registrants' 2002 Annual Report on Form 10-K - ITEM 7. Management's Discussion and Analysis of Financial Condition and Results of Operations--Business Outlook and the Challenges in Managing Our Business for each of Exelon, ComEd, PECO and Generation, (b) the Registrants' 2002 Annual Report on Form 10-K - ITEM 8. Financial Statements and Supplementary Data: Exelon - Note 19, ComEd - Note 16, PECO - Note 18 and Generation - Note 13 and (c) other factors discussed in filings with the United States Securities and Exchange Commission (SEC) by the Registrants. Readers are cautioned not to place undue reliance on these forward-looking statements, which apply only as of the date of this Report. None of the Registrants undertakes any obligation to publicly release any revision to its forward-looking statements to reflect events or circumstances after the date of this Report.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

#### Exelon Announces Third Quarter Earnings; Raises 2003 Operating Earnings Guidance

Chicago (October 23, 2003) - Exelon Corporation (NYSE: EXC) today announced operating earnings for the third quarter of 2003 of \$535 million, or \$1.63 per share (diluted), compared with operating earnings of \$551 million, or \$1.70 per share (diluted), for the same period in 2002. The 3% decrease in year-over-year operating earnings was due primarily to a weather-related decrease in kWh sales and decreased competitive transition charge (CTC) revenue at ComEd, which was only partially offset by higher margins at Generation and lower interest expense.

Reported third quarter 2003 consolidated earnings prepared in accordance with accounting principles generally accepted in the United States (GAAP) were a loss of \$102 million, or \$0.31 per share. Reported results for the third quarter include the \$573 million, or \$1.74 per share, after-tax charge for the impairment of the Exelon Boston Generating (EBG) assets as a result of management's decision to transition out of ownership of those assets. After-tax severance charges related to The Exelon Way program reduced reported earnings by \$104 million or \$0.32 per share. Reported earnings also include a \$36 million, or \$0.11 per share, after-tax charge related to the impairment of Exelon's investment in Sithe Energies, Inc. (Sithe). Exelon also recorded an after-tax gain of \$29 million, or \$0.09 per share, during the third quarter of 2003 associated with the closing of the sale of certain businesses of InfraSource, Inc. Finally, reported earnings include a \$47 million after-tax gain, or \$0.14 per share, related to the reduction of certain real estate tax reserves.

Third quarter operating earnings drivers include savings related to the Midwest Generation contracts, increased market sales at higher prices at Generation, lower interest expense and higher interest income in the quarter compared with third quarter 2002. These positives were not sufficient to offset a weather-related decrease in kWh sales and revenue and reduced CTC revenue at ComEd. The estimated net impact of weather for the quarter is a decrease of \$0.14 per share in the third quarter compared with the prior year but a \$0.02 per share increase relative to the normal weather that was incorporated in Exelon's quidance.

"I am pleased by all that we accomplished during the third quarter," said John W. Rowe, Exelon Chairman and CEO. "Our operating earnings strength is evidence of our commitment to excellence and the success of The Exelon Way. The completed sale of InfraSource and the announced purchase of British Energy's interest in AmerGen demonstrate our focus on our core strengths. We have revised our earnings guidance for 2003 to \$5.05 to \$5.20 per share. Based on the current outlook, we believe we are in a position to earn \$5.25 to \$5.55 per share in 2004."

#### 2003 and 2004 Earnings Outlook

Exelon's 2003 earnings outlook has been updated to incorporate year-to-date events including year-to-date operating results and our expectations for the balance of the year. Exelon's current guidance for consolidated 2003 operating earnings, excluding unusual items, is a range of \$5.05 to \$5.20 per diluted share based on the assumption of normal weather in the fourth quarter. Operating earnings exclude the first quarter \$0.34 per share gain from the cumulative effect for the change in accounting principle (SFAS 143), the net \$0.05 per share charge related to the March 3 ComEd settlement agreement and the \$0.51 per share impairment charge of our Sithe Energies investment. We also exclude the \$1.74 per share impairment charge related to EBG, the \$0.32 per share severance charge related to The Exelon Way and the \$0.14 per share positive effect of the reduction of property tax reserves in the third quarter. We have increased our guidance for 2004 operating earnings to a range of \$5.25 to \$5.55 per share, to include the impact of the purchase of 50% of AmerGen during the first quarter.

#### Third Quarter Highlights

Nuclear Operations Exelon Generation's nuclear fleet, excluding AmerGen, produced 30,152 GWhs for the third quarter of 2003, compared with 29,817 GWhs output for the third quarter of 2002. The fleet, including AmerGen, achieved a capacity factor of 95.3% for the third quarter of 2003, compared with 93.9% for the third quarter of 2002. Exelon Generation's nuclear group did not have any outages scheduled during July and August and began two scheduled outages in September, a similar schedule to the third quarter 2002.

Sithe Energies, Inc. Investment On August 13, 2003, Exelon Generation announced an agreement with entities controlled by Reservoir Capital Group (Reservoir), a private investment firm, to sell 50% of Sithe in exchange for \$75.8 million in cash. This sale will occur after Exelon Generation closes on the Call Transaction announced in May 2003. Both Exelon's and Reservoir's 50% interest in Sithe will be subject to Put and Call Options that could result in either party owning 100% of Sithe. While Exelon's intent is to fully divest Sithe by the end of 2004, the timing of the Put and Call Options vary by acquirer and can extend through March 2006. The sale is expected to close in the fourth quarter 2003. In a separate transaction, Sithe has entered into an agreement with Reservoir to sell entities holding six U.S. generating facilities, each a Qualifying Facility under the Public Utility Regulatory Policies Act, and an entity holding Sithe's Canadian assets in exchange for \$46.2 million (\$26.2 million in cash and a \$20 million two-year note). The sale is also expected to close in the fourth quarter 2003. This sale is not contingent on the sale of Exelon's 50% interest in Sithe to Reservoir.

- o InfraSource Sale On September 24, 2003, Exelon Enterprises, parent company of InfraSource, Inc., announced that it had finalized the sale of the electric construction and services, underground and telecom businesses of InfraSource to GFI Energy Ventures LLC and Oaktree Capital Management LLC. The InfraSource companies involved in the sale are MJ Electric, InfraSource Underground, Electric Services Inc., Dashiell and Dacon, Blair Park Services/Sunesys and RJE Telecom.
- o Midwest Generation Options On October 1, 2003, Exelon Generation notified Midwest Generation (Midwest) of the exercise of its termination options under the existing Collins and Peaking Purchase Power Agreements. Exelon Generation released 303 MWs of peaking capacity and will retain the output of 1,476 MWs of Collins and peaking unit capacity in 2004. On June 25, 2003, Exelon exercised its call option to retain 687 MWs of coal capacity. For the contract year 2004, Exelon has contracted for 3,859 MWs of capacity from Midwest, which includes 1,696 MWs of non-option coal capacity. By exercising the Midwest contract options and restructuring the 2004 supply portfolio, the expected pre-tax net capacity savings in 2004 compared with 2003, after replacement energy and other associated costs, are approximately \$20-\$40 million.
- o AmerGen On October 10, 2003, Exelon Corporation reached an agreement to buy British Energy's 50-percent interest in AmerGen Energy Co. LLC for \$276.5 million, giving Exelon sole ownership of AmerGen and its three nuclear plants. AmerGen owns the Clinton Power Station, Three Mile Island Unit 1 and the Oyster Creek Generating Station. The three plants represent about 2,500 megawatts of generating capacity. The AmerGen purchase is expected to be completed around the end of the first quarter of 2004.

#### BUSINESS UNIT RESULTS

Exelon Corporation's consolidated net loss in accordance with GAAP for the third quarter of 2003 was \$102 million compared with net income of \$551 million in the third quarter of 2002.

Exelon Energy Delivery consists of the retail electricity transmission and distribution operations of ComEd and PECO and the natural gas distribution business of PECO. Energy Delivery's net income in the third quarter of 2003 was \$303 million compared with net income of \$370 million in the third quarter of 2002, primarily due to decreased weather-related kWh sales, reduced CTC recoveries at ComEd and severance charges associated with The Exelon Way, partially offset by lower regulatory asset amortization at ComEd and the reduction of certain property tax reserves at PECO in 2003.

Cooling degree-days in the ComEd service territory were down 25% relative to last year and 3% below normal. In the PECO service territory, cooling degree-days were down 11% compared with 2002 but were 13% above normal. Total retail kWh deliveries decreased 5% for ComEd, with a 10% decrease in deliveries to the weather-sensitive residential customer class. PECO's residential deliveries were down 5% and retail kWh deliveries decreased 2% overall. Energy Delivery's total revenues for the third quarter of 2003 of \$2,886 million were down 9% from \$3,162 million in 2002, offset by a \$124 million net decrease in fuel and purchased power. Operating and maintenance expense increased \$84 million reflecting severance charges associated with The Exelon Way and higher storm costs in the ComEd and PECO service territories in 2003. The impact of the cooler summer weather decreased Exelon's third quarter 2003 earnings per share (diluted) by approximately \$0.14 relative to 2002, but results were favorable by \$0.02 relative to the normal weather that was incorporated in our earnings guidance. Exelon Generation consists of Exelon's electric generation operations and power marketing and trading functions. Generation's third quarter 2003 net loss was \$428 million compared to third quarter 2002 net income of \$163 million. The loss is primarily attributable to the \$573 million after-tax charge for the impairment of the EBG assets, an additional impairment loss of \$36 million after tax on the investment in Sithe, a \$30 million after-tax severance reserve related to The Exelon Way, and a \$9 million after-tax benefit for the reduction of an accrual for Pennsylvania property taxes. Excluding these items, net income was \$202 million in the third quarter of 2003.

Energy sales for the third quarter of 2003 totaled 61,850 GWhs, exclusive of trading volumes, compared with 57,173 GWhs in 2002. Generation's third quarter 2003 revenue of \$2,537 million includes a net trading portfolio gain of \$1 million compared with third quarter 2002 revenue of \$2,213 million, which includes a net trading portfolio loss of \$12 million. Revenues, excluding the trading portfolio, increased 14% from the third quarter of 2002, reflecting the increased revenue from the 2002 acquisition of the New England plants and higher market prices for energy.

Generation's revenue net fuel increased by \$183 million in third quarter 2003 compared with third quarter 2002 excluding the mark-to-market impact in both years. The improvement includes \$59 million of incremental margin contribution from the New England plants acquired in the fourth quarter of 2002. The increase was driven by higher wholesale power prices and volume in all regions in which Power Team operates, a higher average power price to ComEd, higher nuclear generation and lower capacity payments to Midwest Generation, offset partially by higher supply costs, primarily fuel costs. The average realized price excluding trading activity in the third quarter of 2003 was \$40.03 per MWh compared with \$38.69 per MWh in 2002. Higher market prices, driven by higher market gas and oil prices, were partially offset by our hedged position during the quarter. Higher gas prices resulted in higher supply costs, primarily fuel costs.

Operating and maintenance expenses include the \$945 million pre-tax charge for the impairment of the EBG assets. Excluding this charge, operating and maintenance expenses were up for the quarter reflecting \$30 million of additional expenses resulting from the acquired New England plants, \$46 million of severance costs associated with The Exelon Way and the effects of certain new accounting treatments under FAS 143. The net impact of FAS 143 was neutral in the third quarter of 2003 versus a net expense impact in the third quarter 2002. Depreciation expense was \$17 million lower in the third quarter 2003 versus 2002 due to the impact of FAS 143, partially offset by additional depreciation for the acquired New England plants and new capital additions.

Earnings from equity affiliates were \$34 million lower for the quarter driven by lower earnings from Sithe as a result of Exelon's acquisition of Sithe's New England plants in the fourth quarter of 2002 and lower earnings at AmerGen.

Exelon Enterprises consists of Exelon's competitive retail energy sales, energy solutions and infrastructure services, venture capital investments and related businesses. Enterprises reported third quarter 2003 net income of \$16 million compared with third quarter 2002 net income of \$15 million. Enterprises achieved a \$1 million net income improvement compared with 2002 due to an after-tax gain of \$29 million recognized during the third quarter of 2003 upon the closing of the sale of certain businesses of InfraSource. Absent that gain, operating earnings were down \$28 million primarily from lower operating results at InfraSource resulting from a decrease in the electric line of business and lower equity in earnings of unconsolidated affiliates compared with the recovery of

trade receivables at a communications joint venture in 2002.

Conference call information: Exelon has scheduled a conference call for 11 AM ET (10 AM CT) on October 23. The call-in number in the U.S. is 877-407-4094 and the international call-in number is 201-689-8037. No password is required. Media representatives are invited to participate on a listen-only basis. The call will be web-cast and archived on Exelon's web site: www.exeloncorp.com. (Please select the Investor Relations page.)

Telephone replays will be available through November 7. The U.S. call-in number is 877-660-6853 and the international call-in number is 201-612-7415. The account number is 4094 and the conference call number is 79176.

#### **Operating Earnings**

Operating earnings (pro forma), which generally exclude non-operational items as well as one-time charges or credits that are not normally associated with our ongoing operations, are provided as a complement to results provided in accordance with GAAP. Management uses such pro forma measures internally to evaluate the company's performance and manage its operations. A reconciliation of GAAP to operating earnings is included in the attachments to this release.

Except for the historical information contained herein, certain of the matters discussed in this news release are forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, that are subject to risks and uncertainties. The factors that could cause actual results to differ materially from the forward-looking statements made by a registrant include those factors discussed herein as well as the items discussed in Exelon Corporation's 2002 Annual Report on Form10-K in (a) ITEM 7. Management's Discussion and Analysis of Financial Condition and Results of Operations--Business Outlook and the Challenges in Managing Our Business for each of Exelon, ComEd, PECO and Generation and (b) ITEM 8. Financial Statements and Supplementary Data: Exelon--Note 19, ComEd--Note 16, PECO--Note 18 and Generation--Note 13, and (c) other factors discussed in filings with the Securities and Exchange Commission (SEC) by Exelon Corporation, Commonwealth Edison Company, PECO Energy Company and Exelon Generation Company, LLC (Registrants). Readers are cautioned not to place undue reliance on these forward-looking statements, which apply only as of the date of this news release. None of the Registrants undertakes any obligation to publicly release any revision to its forward-looking statements to reflect events or circumstances after the date of this news release.

###

Exelon Corporation is one of the nation's largest electric utilities with approximately 5 million customers and \$15 billion in annual revenues. The company has one of the industry's largest portfolios of electricity generation capacity, with a nationwide reach and strong positions in the Midwest and Mid-Atlantic. Exelon distributes electricity to approximately 5 million customers in Illinois and Pennsylvania and gas to more than 450,000 customers in the Philadelphia area. Exelon is headquartered in Chicago and trades on the NYSE under the ticker EXC.

	==========

- (1) Primarily related to cooler summer weather in 2003 as compared to 2002.
- (2) Reflects a decrease in the CTC rates recovered by ComEd due to increased wholesale market price of electricity, net of increased mitigation factors.
- (3) Primarily related to increased market sales of electricity at higher prices by Generation along with reductions in capacity payments to Midwest Generation. Excludes the effect of the acquisition of Sithe New England (currently known as Exelon New England (ENE)) in November 2002.
- (4) Reflects increased storm costs in the Energy Delivery service territories.
- (5) Reflects reduced operating expenses, excluding severance charges, storm costs at Energy Delivery, gain on the sale of InfraSource and the effect of the acquisition of ENE, primarily due to decreased salaries and wages at Energy Delivery, decreased environmental reserves at ComEd and the deployment of automated meter reading technology at PECO.
- (6) Reflects lower non-energy margins at Enterprises, primarily InfraSource, due to an overall decline in revenue.
- (7) Reflects lower interest expense, excluding the effect of the acquisition of ENE, due to refinancing of existing debt at lower interest rates and the gradual retirement of ComEd's Transitional Trust Notes.
- (8) Reflects lower equity in earnings of unconsolidated affiliates, excluding the effect of the acquisition of ENE in November 2002, related to AmerGen and Sithe Energies, Inc.
- (9) Reflects the effect on net income of the acquisition of ENE, excluding the impairments of EBG and Sithe Energies, Inc.
- (10) Reflects the impairment of the EBG assets recorded by Generation during the third quarter of 2003.
- (11) Reflects severance and severance-related costs recorded during the third quarter of 2003.
- (12) Reflects the reduction of certain property tax accruals at PECO and Generation during the third quarter of 2003.
- (13) Reflects an additional impairment of the investment held by Generation in Sithe Energies, Inc. recorded during the third quarter of 2003.
- (14) Reflects a gain on the sale of the electric construction and services, underground and telecom businesses of InfraSource Inc. recorded during the third quarter of 2003.

#### EXELON CORPORATION Earnings Per Diluted Share Reconciliation Nine Months Ended September 30, 2003 vs. Nine Months Ended September 30, 2002

2002 Earnings per Diluted Share	\$ 3.22
2002 Pro Forma Adjustments: Cumulative Effect of Adopting SFAS No. 142 Gain on the Sale of Investment in AT&T Wireless (1) Severance (2)	0.71 (0.36) 0.04
2002 Pro Forma Earnings	3.61
Year Over Year Effects on Earnings: Energy Margins: Generation (3) Weather Impact (4) Other Lower Interest Expense (5) Lower O&M (6) Higher Investment Income (7) Lower Non-Energy Margins at Enterprises (8) Lower Depreciation and Amortization Expense (9) ENE Acquisition Effect (10) Other	$\begin{array}{c} 0.31 \\ (0.12) \\ (0.04) \\ 0.18 \\ 0.12 \\ 0.09 \\ (0.09) \\ 0.08 \\ (0.06) \\ (0.01) \end{array}$
2003 Pro Forma Earnings	4.07
2003 Pro Forma Adjustments: Exelon Boston Generating (EBG) Impairment (11) Impairment of Investment in Sithe Energies, Inc. (12) Cumulative Effect of Adopting SFAS No. 143 Severance (13) Property Tax Accrual Reductions (14) March 3 ComEd Settlement Agreement (15) InfraSource Sale (16)	(1.74) (0.51) 0.34 (0.32) 0.14 (0.05)
2003 Earnings per Diluted Share	\$ 1.93

- (1) Gain on Exelon Enterprises' sale of its 49% interest in AT&T Wireless PCS of Philadelphia.
- (2) Executive severance partially offset by favorable adjustments to previous severance estimates. A portion of the executive severance was not tax deductible. As a result, the after-tax impact on earnings was \$0.04 per share.
- (3) Primarily related to increased market sales of electricity at higher prices by Generation along with reductions in capacity payments to Midwest Generation. Excludes the effect of the acquisition of Sithe New England (currently known as Exelon New England (ENE)) in November 2002.
- (4) Primarily related to cooler spring and summer weather in 2003 as compared to 2002, partially offset by colder winter weather in 2003 as compared to 2002.
- (5) Reflects lower interest expense, excluding the effect of the acquisition of ENE, due to refinancing of existing debt at lower interest rates and the gradual retirement of ComEd's Transitional Trust Notes.
- (6) Reflects reduced operating expenses, excluding severance charges, the effect of the acquisition of ENE, the net loss on the sale of InfraSource, Inc. in the second quarter of 2003 and SFAS No. 143, primarily due to decreased salaries and wages at Energy Delivery, decreased nuclear refueling outages at Generation and the deployment of automated meter reading technology at PECO. These decreases were partially offset by increased pension and postretirement benefit expense and increased storm costs in the Energy Delivery service territories.
- (7) Primarily reflects the effects of write-downs of communication and energy-related investments at Enterprises in 2002 and higher investment income related to nuclear decommissioning trust funds in 2003, partially offset by an impairment of communication and energy-related investments of Enterprises in 2003.
- (8) Reflects lower non-energy margins at Enterprises, primarily InfraSource, due to an overall decline in revenue.
- (9) Depreciation and amortization expense, excluding SFAS No. 143 and the effect of the acquisition of ENE in November 2002, was lower primarily due to lower depreciation rates and lower recoverable transition cost amortization at ComEd, partially offset by increased depreciation related to higher depreciable plant balances, reflecting Generation's plant acquisitions in 2002 and additions at Energy Delivery, and higher CTC amortization at PECO.

(10) Reflects the effect on net income of the acquisition of ENE in November 2002,

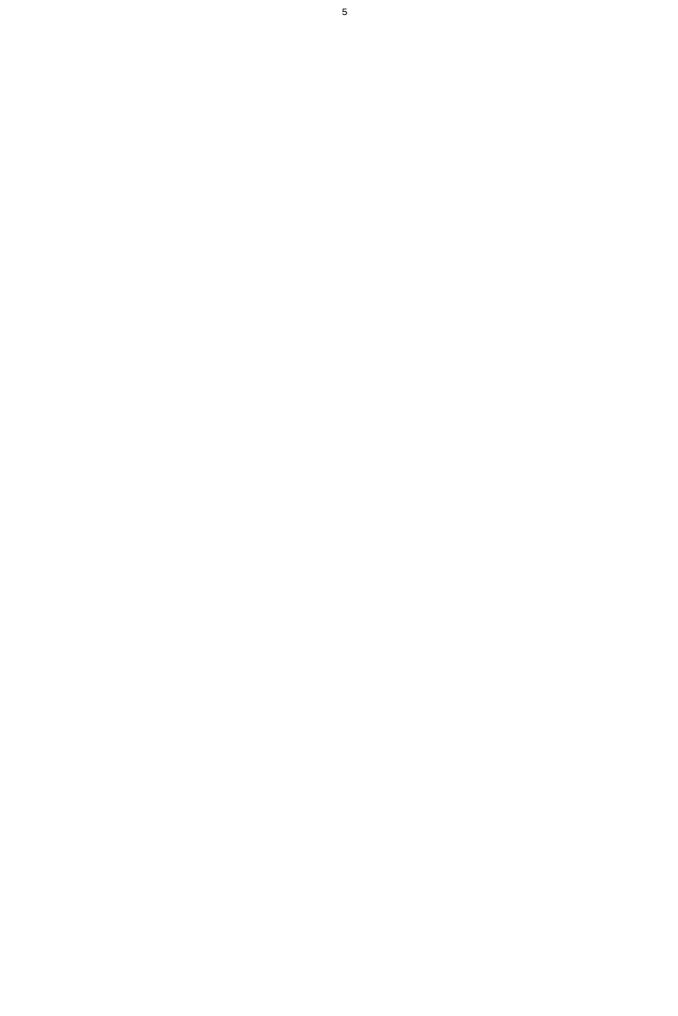

excluding the impairments of EBG and Sithe Energies, Inc.

- (11) Reflects the impairment of the EBG assets recorded by Generation during the third quarter of 2003.
- (12) Impairment of the investment held by Generation in Sithe Energies, Inc. recorded during the first and third quarters of 2003.
- (13) Reflects severance and severance related costs recorded during the third quarter of 2003.
- (14) Reflects the reduction of certain property tax accruals at PECO and Generation during the third quarter of 2003.
- (15) Agreement reached by ComEd and various Illinois suppliers, customers, and governmental parties regarding several matters affecting ComEd's rates for electric service during the first quarter of 2003.
- (16) Reflects the net impact of an impairment of goodwill related to InfraSource, Inc. in the second quarter of 2003 and the loss on the sale of the electric construction and services, underground and telecom businesses of InfraSource Inc., which closed during the third quarter of 2003.

- (a) Bundled service reflects deliveries to customers taking electric service under tariffed rates, which include the cost of energy and the delivery cost of the transmission and distribution of the energy. PECO's tariffed rates also include a CTC charge.
- (b) Unbundled service reflects customers electing to receive electric generation service under the ComEd PPO option or from an alternative energy supplier. Revenue from customers choosing the ComEd PPO option includes an energy charge at market rates, transmission and distribution charge and a CTC charge. Revenue from customers choosing an alternative energy supplier includes a distribution charge and a CTC charge. Transmission charges received from alternative energy suppliers are included in wholesale and miscellaneous revenue.
- (c) On May 1, 2002, all ComEd residential customers were eligible to choose their supplier of electricity; however, as of September 30, 2003, no alternative electric supplier has sought approval from the Illinois Commerce Commission and no electric utilities have chosen to enter the ComEd residential market for the supply of electricity.
