Section 8 – Other Events

Item 8.01. Other Events

On May 24, 2011, the Illinois Commerce Commission (ICC) issued an order in Commonwealth Edison Company's (ComEd) 2010 electric delivery services rate case. ComEd requested an increase in the annual revenue requirement to allow ComEd to recover the costs of substantial investments made in its distribution system since its last rate filing in 2007. The requested increase also reflected increased costs, most notably pension and other postretirement employee benefits, since ComEd's rates were last determined.

The ICC order, which will become effective June 1, 2011, approved a \$143 million increase to ComEd's annual delivery services revenue requirement, which is approximately 42% of the \$343 million requested by ComEd in its reply brief on February 23, 2011. The approved rate of return on common equity is 10.50%. As a result of the order, ComEd anticipates recording a one-time net benefit of approximately \$58 million that includes the reestablishment of previously expensed plant balances, the establishment of new regulatory assets, and the reversal of certain reserves. ComEd is evaluating the results of the order and may request a rehearing from the ICC on specific issues. ComEd cannot predict whether any other parties may file appeals, or the results of any such appeals.
