Section 8 – Other Events

Item 8.01 Other Events.

On March 1, 2007, Exelon Corporation (Exelon) subsidiary Commonwealth Edison Company (ComEd) filed a request with the Federal Energy Regulatory Commission (FERC) seeking approval to increase the rate it receives for transmission services. The proposed rate increase would increase an average residential customer bill about 1.5%. ComEd is requesting that the new transmission rate, if accepted by FERC, be effective in May 2007. ComEd is proposing that FERC approve a formula to calculate future transmission charges, updated annually to assure that under this rate customers pay the actual costs of providing transmission services. ComEd's transmission rate was last updated in 2003. Between 2003 and the end of 2007, ComEd will have invested over \$800 million in transmission-related plant to meet increasing demand and improve reliability. ComEd cannot predict how much of a transmission rate increase the FERC may approve or when the rate increase will go into effect. A copy of the rate request will be available at the following website: <http://www.pjm.com/documents/to-ferc-filings.html>.
