NEWS FOR THE EMPLOYEES OF EXELON GENERATION, EXELON POWER AND EXELON POWER TEAM MAY 24, 2011

Exelon agrees to acquire combined-cycle natural gas-fired plant in Texas

Wolf Hollow is a 720 megawatt combined-cycle natural gas-fired power plant located in north Texas.

On May 12, Exelon announced an agreement to acquire Wolf Hollow, a combined-cycle natural gas-fired power plant in north Texas, from Sequent Wolf Hollow, LLC, for \$305 million, as adjusted for working capital. The transaction adds 720 megawatts (MW) of clean energy to Exelon's fleet in the competitive Electric Reliability Council of Texas (ERCOT) power market, where the company already owns and operates three other natural gas-fired power plants.

"This acquisition will increase our clean energy portfolio, expand Exelon's presence in the competitive Texas energy market, and create value for Exelon shareholders," said John W. Rowe, Exelon chairman and CEO. "Forthcoming EPA clean air rules will make Exelon's natural gas-fired power plants even more valuable and increase our role in the nation's transition to a clean energy future."

Wolf Hollow, located near Granbury, Texas, began operation in August 2003. It is equipped with two Mitsubishi combined-cycle gas turbines and serves the Dallas and Fort Worth areas. Exelon currently has a power purchase agreement with Wolf Hollow, through 2023, to purchase 350 MW of its output at above current observable market power prices.

In addition to eliminating the existing power purchase agreement, Exelon expects the transaction will be accretive to free cash flow beginning in 2012. The transaction also creates long-term value for Exelon by adding an efficient combined-cycle natural gas-fired plant to Exelon's fleet in ERCOT.

The proposed acquisition of Wolf Hollow follows Exelon's announcement last month that it plans to merge with Constellation Energy, which will create one of the industry's cleanest and lowest-cost power generation fleets. The acquisition of Wolf Hollow will reinforce one of the key benefits of the merger—matching Exelon's abundant clean energy supply with Constellation's large customer demand in key competitive markets.

The Wolf Hollow transaction will build on the company's commitment to clean energy as part of *Exelon 2020*, a business and environmental strategy to eliminate the equivalent of Exelon's 2001 carbon footprint. Exelon already is the least carbon-intensive of the large U.S. electric utilities.

The Wolf Hollow transaction is subject to approval by the Public Utility Commission of Texas and the notification and reporting requirements under the Hart-Scott-Rodino Act.

Cautionary Statements Regarding Forward-Looking Information

Except for the historical information contained herein, certain of the matters discussed in this communication constitute "forward-looking statements" within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934, both as amended by the Private Securities Litigation Reform Act of 1995. Words such as "may," "will," "anticipate," "estimate," "expect," "project," "intend," "plan," "believe," "target," "forecast," and words and terms of similar substance used in connection with any discussion of future plans, actions, or events identify forward-looking statements. These forward-looking statements include, but are not limited to, statements regarding benefits of the proposed merger, integration plans and expected synergies, the expected timing of completion of the transaction, anticipated future financial and operating performance and results, including estimates for growth. These statements are based on the current expectations of management of Exelon Corporation (Exelon) and Constellation Energy Group, Inc. (Constellation), as applicable. There are a number of risks and uncertainties that could cause actual results to differ materially from the forward-looking statements included in this communication. For example, (1) the companies may be unable to obtain shareholder approvals required for the merger; (2) the companies may be unable to obtain regulatory approvals required for the merger, or required regulatory approvals may delay the merger or result in the imposition of conditions that could have a material adverse effect on the combined company or cause the companies to abandon the merger; (3) conditions to the closing of the merger may not be satisfied; (4) an unsolicited offer of another company to acquire assets or capital stock of Exelon or Constellation could interfere with the merger; (5) problems may arise in successfully integrating the businesses of the companies, which may result in the combined company not operating as effectively and efficiently as expected; (6) the combined company may be unable to achieve cost-cutting synergies or it may take longer than expected to achieve those synergies; (7) the merger may involve unexpected costs, unexpected liabilities or unexpected delays, or the effects of purchase accounting may be different from the companies' expectations; (8) the credit ratings of the combined company or its subsidiaries may be different from what the companies expect; (9) the businesses of the companies may suffer as a result of uncertainty surrounding the merger; (10) the companies may not realize the values expected to be obtained for properties expected or required to be divested; (11) the industry may be subject to future regulatory or legislative actions that could adversely affect the companies; and (12) the companies may be adversely affected by other economic, business, and/or competitive factors. Other unknown or unpredictable factors could also have material adverse effects on future results, performance or achievements of the combined company. Discussions of some of these other important factors and assumptions are contained in Exelon's and Constellation's respective filings with the Securities and Exchange Commission (SEC), and available at the SEC's website at www.sec.gov, including: (1) Exelon's 2010 Annual Report on Form 10-K in (a) ITEM 1A.
