On October 18, 2011, Exelon sent the following communication to its employees regarding the merger integration process.

Supervisory Brief

Corporate Relocation/Staffing Analysis

October 2011

The proposed merger between Exelon and Constellation continues on track to be completed in the first quarter of 2012. The merger is expected to have minimal impact on Exelon Nuclear as Constellation Energy Nuclear Group will continue to operate separately from Exelon as a joint venture between the combined company and Electricity de France (EDF).

However, as previously announced, the Exelon Nuclear headquarters will move to Kennett Square, and we wanted to provide an update on the corporate relocation and staffing analyses underway within the company.

As part of our corporate relocation planning, we are working to ensure that we maintain cross functional strengths and departmental balance at both Cantera and Kennett Square while doing our utmost to minimize the impact on affected employees.

We're targeted to move 100 positions from Cantera to Kennett Square by the end of 2013. Presently, we have 380 people located at Cantera and 220 people located at Kennett Square; we also have 37 open positions in various Nuclear corporate departments. **We will make every effort to fill as many of these open positions at our Kennett offices as possible to limit the amount of actual relocation. This is intended to help both employees and the business.**

The groups that can expect some relocation to occur could include the Cantera and Kennett Square and some Business Services Company (BSC) organizations that support our business.

Site-based corporate staff such as Outage Services and Nuclear Oversight, by contrast, would not be relocated.

The pending corporate relocation also gives us the opportunity to look more closely at our corporate organization to ensure we are operating according to the Management Model and managing the business properly using the Governance, Oversight, Support and Perform (GOSP) functions.

While our corporate organization has grown larger over the years, we are constantly challenged to use our corporate resources in the most optimal manner to achieve long-term success for the business. The staffing analysis that is currently underway is consistent with our commitment to a cost conscious culture where safe operations are the top priority and where we adjust our spending to reflect the realities of our business; lower prices for our electricity and a faltering economy impacting electricity consumption.

Our goal following these analyses is still the same: we must run our plants safely and well in an effective and productive organizational environment. These analyses are just beginning and we will update you as this work continues.

Cautionary Statements Regarding Forward-Looking Information

Except for the historical information contained herein, certain of the matters discussed in this communication constitute "forward-looking statements" within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934, both as amended by the Private Securities Litigation Reform Act of 1995. Words such as "may," "will," "anticipate," "estimate," "expect," "project," "intend," "plan," "believe," "target," "forecast," and words and terms of similar substance used in connection with any discussion of future plans, actions, or events identify forward-looking statements. These forward-looking statements include, but are not limited to, statements regarding benefits of the proposed merger of Exelon Corporation (Exelon) and Constellation Energy Group, Inc. (Constellation), integration plans and expected synergies, the expected timing of completion of the transaction, anticipated future financial and operating performance and results, including estimates for growth. These statements are based on the current expectations of management of Exelon and Constellation, as applicable. There are a number of risks and uncertainties that could cause actual results to differ materially from the forward-looking statements included in this communication regarding the proposed merger. For example, (1) the companies may be unable to obtain shareholder approvals required for the merger; (2) the companies may be unable to obtain regulatory approvals required for the merger, or required regulatory approvals may delay the merger or result in the imposition of conditions that could have a material adverse effect on the combined company or cause the companies to abandon the merger; (3) conditions to the closing of the merger may not be satisfied; (4) an unsolicited offer of another company to acquire assets or capital stock of Exelon or Constellation could interfere with the merger; (5) problems may arise in successfully integrating the businesses of the companies, which may result in the combined company not operating as effectively and efficiently as expected; (6) the combined company may be unable to achieve cost-cutting synergies or it may take longer than expected to achieve those synergies; (7) the merger may involve unexpected costs, unexpected liabilities or unexpected delays, or the effects of purchase accounting may be different from the companies' expectations; (8) the credit ratings of the combined company or its subsidiaries may be different from what the companies expect; (9) the businesses of the companies may suffer as a result of uncertainty surrounding the merger; (10) the companies may not realize the values expected to be obtained for properties expected or required to be divested; (11) the industry may be subject to future regulatory or legislative actions that could adversely affect the companies; and (12) the companies may be adversely affected by other economic, business, and/or competitive factors. Other unknown or unpredictable factors could also have material adverse effects on future results, performance or achievements of Exelon, Constellation or the combined company. Discussions of some of these other important factors and assumptions are contained in Exelon's and Constellation's respective filings with the Securities and

Exchange Commission (SEC), and available at the SEC's website at www.sec.gov, including: (1) Exelon's 2010 Annual Report on Form 10-K in (a) ITEM 1A. Risk Factors, (b) ITEM 7.
