Section 8 – Other Events

Item 8.01 Other Events.

On October 15, 2007, Exelon Generation Company, LLC (Generation) entered into an agreement (Termination Agreement) with State Line Energy, L.L.C. (State Line), an indirect, wholly-owned subsidiary of Dominion Resources Inc. (Dominion), to terminate the Power Purchase Agreement dated as of April 17, 1996 (as amended, the PPA) between State Line and Generation relating to the State Line generating facility in Hammond, Indiana, under which Generation controls 515 MW of electric energy and capacity from the State Line facility. Generation became a party to the PPA and various other related agreements by assignment from Commonwealth Edison Company as of January 1, 2001.

The effectiveness of the Termination Agreement is subject to a number of conditions, including approval by the Federal Energy Regulatory Commission and receipt of consents of third parties. If the conditions to the effectiveness of the Termination Agreement are satisfied, State Line will pay Generation approximately \$233 million in consideration for termination of the PPA, the purchase of coal inventories on hand and in transit as of October 1, 2007 and other assets.

In connection with the transaction, Generation will assign to Virginia Power Energy Marketing, Inc. (VPEM), a wholly-owned subsidiary of Dominion, various contracts relating to the PPA and the operation of the State Line generating facility, including an agreement for purchase of coal, rail car leases, and transportation agreements. Generation will be released from liability under the contracts assigned to VPEM or will be indemnified by VPEM. The obligations of VPEM for indemnity to Generation will be guaranteed by Dominion. In addition, the rights and obligations under PJM Interconnection, LLC's Reliability Pricing Model market associated with the State Line facility will be transferred from Generation to State Line as of October 1, 2007.

The Termination Agreement will terminate and be of no further force and effect if the various conditions to the effectiveness of the Termination Agreement are not satisfied by December 31, 2007.

On October 15, 2007, Generation issued a press release regarding the Termination Agreement. A copy of the press release is attached hereto as Exhibit 99.1.

Exelon Generation Terminates Interest in State Line Energy
Dominion Resources to Buy Out Exelon's Contract

Kennett Square, PA. – Exelon Generation has entered into an agreement to terminate its Power Purchase Agreement (PPA) and other related agreements with State Line Energy, L.L.C. (State Line). State Line is an indirect, wholly-owned subsidiary of Dominion Resources, Inc. The agreement is subject to a number of conditions, including approval by the Federal Energy Regulatory Commission and others.

Exelon Generation assumed the PPA and the other related contracts on January 1, 2001 from Commonwealth Edison Company (ComEd). ComEd had contracted to purchase the output from the 515 MW coal generating facility in Hammond, Indiana since 1996. The contract was due to run through 2012.

Exelon Power Team President Ian McLean said, “We believe that we received excellent value for the contract. Terminating this contract generates immediate cash flow and allows us to focus on more strategic assets and minimize risk associated with a plant that we do not own or operate. Risk associated with the cost structure and operational performance of this plant will now appropriately be in the hands of the owner.”

###

Exelon Generation is a unit of Exelon Corporation, one of the nation’s largest electric utilities with more than \$15 billion in annual revenues. Exelon Generation has one of the industry’s largest portfolios of electricity generation capacity, with a nationwide reach and strong positions in the Midwest and Mid-Atlantic. Exelon is headquartered in Chicago and trades on the NYSE under the ticker EXC.
