### Item 8.01 Other Events SIGNATURES

#### Section 8 – Other Events Item 8.01 Other Events

John W. Rowe, Chairman, President and CEO of Exelon Corporation (Exelon), has established a third structured, prearranged stock trading plan to exercise stock options and sell a portion of the acquired shares in accordance with Rule 10b5-1 under the Securities Exchange Act of 1934. Mr. Rowe's first 10b5-1 stock trading plan was announced in February 2004 and expired in February 2005. Exercises of options and sales under Mr. Rowe's current 10b5-1 plan, announced in March 2005, are expected to continue until February 2007.

The new trading plan covers the exercise of vested stock options for 750,000 shares that were granted to Mr. Rowe in 2002 and 2003. These options are expected to be exercised over a one-year period beginning in May 2007. After selling enough shares to cover the exercise cost, tax withholding, and brokerage fees, Mr. Rowe expects to retain one quarter of the shares that remain. The other three-quarters of the remaining shares will be sold, from which Mr. Rowe plans to contribute a substantial portion of the net cash proceeds to charities or a charitable trust, as Mr. Rowe is doing under his current trading plan. The stock trading plan is being established to continue Mr. Rowe's practice of diversifying a portion of his holdings in excess of his stock ownership requirement and to deal with the aging of these options. The plan will allow him to do so in an orderly manner as part of his estate and tax planning activities.

Exelon's stock ownership guidelines require Mr. Rowe to own a fixed number of shares of Exelon stock or stock equivalents (excluding stock options) based on a multiple of five times his base salary. Mr. Rowe holds stock and stock equivalents (excluding options) amounting to about 275% of this guideline. Mr. Rowe and his wife own over 210,000 shares. Mr. Rowe also owns nearly 100,000 performance shares and over 315,000 shares or share equivalents deferred until he retires. Mr. Rowe's stock ownership will continue to increase after the exercise of options under the new stock trading plan. He holds options to acquire 629,000 shares in addition to the options that are included in his stock trading plans.

Since February 2005 a total of ten of Exelon's senior officers have also entered into one or more similar pre-arranged stock trading plans to sell a limited number of shares of Exelon common stock in order to diversify their assets. Under Exelon's stock ownership guidelines, executive vice presidents should own a fixed number of shares of Exelon stock or stock equivalents (excluding stock options) based on a multiple of three times their base salary, and senior vice presidents should own a fixed number of shares based on a multiple of two times their base salary. Each of the senior officers who entered into a stock trading plan held stock and stock equivalents (excluding options) exceeding the applicable stock ownership guideline, and each of those officers will continue to meet the applicable stock ownership guideline after the completion of the sales contemplated by the stock trading plans.
