On January 26, 2011, Exelon Corporation (Exelon) announced via press release its results for the fourth quarter ended December 31, 2010. A copy of the press release and related attachments is attached hereto as Exhibit 99.1. Also attached as Exhibit 99.2 to this Current Report on Form 8-K are the presentation slides to be used at the fourth quarter 2010 earnings conference call. This Form 8-K and the attached exhibits are provided under Items 2.02, 7.01 and 9.01 of Form 8-K and are furnished to, but not filed with, the Securities and Exchange Commission.

Exelon has scheduled the conference call for 11:00 AM ET (10:00 AM CT) on January 26, 2011. The call-in number in the U.S. and Canada is 800-690-3108, and the international call-in number is 973-935-8753. If requested, the conference ID number is 34838808. Media representatives are invited to participate on a listen-only basis. The call will be web-cast and archived on Exelon’s Web site: [www.exeloncorp.com](http://www.exeloncorp.com). (Please select the Investors page.)

Telephone replays will be available until February 9<sup>th</sup>. The U.S. and Canada call-in number for replays is 800-642-1687, and the international call-in number is 706-645-9291. The conference ID number is 34838808.

This combined Form 8-K is being furnished separately by Exelon, Exelon Generation Company, LLC, Commonwealth Edison Company and PECO Energy Company (Registrants). Information contained herein relating to any individual Registrant has been furnished by such Registrant on its own behalf. No Registrant makes any representation as to information relating to any other Registrant.

This Current Report includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that are subject to risks and uncertainties. The factors that could cause actual results to differ materially from these forward-looking statements include those discussed herein as well as those discussed in (1) Exelon’s 2009 Annual Report on Form 10-K in (a) ITEM 1A. Risk Factors, (b) ITEM 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations and (c) ITEM 8. Financial Statements and Supplementary Data: Note 18; (2) Exelon’s Third Quarter 2010 Quarterly Report on Form 10-Q in (a) Part II, Other Information, ITEM 1A. Risk Factors, (b) Part 1, Financial Information, ITEM 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations and (c) Part I, Financial Information, ITEM 1. Financial Statements: Note 13; and (3) other factors discussed in filings with the Securities and Exchange Commission by the Registrants. Readers are cautioned not to place undue reliance on these forward-looking statements, which apply only as of the date of this Current Report. None of the Registrants undertakes any obligation to publicly release any revision to its forward-looking statements to reflect events or circumstances after the date of this Current Report.

**Exelon Announces Fourth Quarter and Full Year 2010 Results;  
Introduces Guidance Range for Full Year 2011 Earnings**  
*Company projects 2011 operating earnings of \$3.90 to \$4.20 per share.*

**CHICAGO** (January 26, 2011) – Exelon Corporation (NYSE: EXC) announced fourth quarter and full year 2010 consolidated earnings as follows:

**Exelon Consolidated Earnings** (unaudited)

|                                               | Full Year |         | Fourth Quarter |        |
|-----------------------------------------------|-----------|---------|----------------|--------|
|                                               | 2010      | 2009    | 2010           | 2009   |
| <b>Adjusted (non-GAAP) Operating Results:</b> |           |         |                |        |
| Net Income (\$ millions)                      | \$2,689   | \$2,723 | \$ 631         | \$ 610 |
| Diluted Earnings per Share                    | \$ 4.06   | \$ 4.12 | \$0.96         | \$0.92 |
| <b>GAAP Results:</b>                          |           |         |                |        |
| Net Income (\$ millions)                      | \$2,563   | \$2,707 | \$ 524         | \$ 581 |
| Diluted Earnings per Share                    | \$ 3.87   | \$ 4.09 | \$0.79         | \$0.88 |

“We delivered another exceptional year of financial and operating performance in 2010,” said John W. Rowe, chairman and chief executive officer. “We accomplished this with a keen focus on controlling operating and maintenance expenses across our businesses. At the same time, Exelon Generation attained its eighth consecutive year of nuclear fleet capacity factors that exceeded 93 percent, and ComEd and PECO demonstrated strong service reliability despite severe storms.”

Rowe added, “In 2011, Pennsylvania has fully transitioned to a competitive energy market, and along with our continued diligent focus on cost control and financial discipline, we are introducing full year operating earnings guidance of \$3.90 to \$4.20 per share.”

### Fourth Quarter Operating Results

As shown in the table above, Exelon’s adjusted (non-GAAP) operating earnings increased to \$0.96 per share in the fourth quarter of 2010 from \$0.92 per share in the fourth quarter of 2009, primarily due to:

- The impact at Exelon Generation Company, LLC (Generation) of favorable capacity pricing related to the Reliability Pricing Model (RPM) for the PJM Interconnection, LLC (PJM) market;
- Increased nuclear output at Generation primarily reflecting the effect of fewer nuclear outage days in 2010; and
- Decreased scheduled competitive transition charge (CTC) amortization expense at PECO Energy Company (PECO).

Higher fourth quarter 2010 earnings were partially offset by:

- Unfavorable market/portfolio conditions and higher nuclear fuel costs at Generation; and
- Increased depreciation expense across the operating companies largely due to ongoing capital expenditures.

Adjusted (non-GAAP) operating earnings for the fourth quarter of 2010 do not include the following items (after tax) that were included in reported GAAP earnings:

|                                                                                                                                     | <u>(in millions)</u> | <u>(per diluted share)</u> |
|-------------------------------------------------------------------------------------------------------------------------------------|----------------------|----------------------------|
| Mark-to-market losses primarily from Generation's economic hedging activities                                                       | \$ (113)             | \$ (0.17)                  |
| Unrealized gains related to nuclear decommissioning trust (NDT) fund investments to the extent not offset by contractual accounting | \$ 26                | \$ 0.04                    |
| Costs associated with the planned retirement of certain Generation fossil generating units                                          | \$ (17)              | \$ (0.03)                  |
| Decrease in costs related to adjustments to asset retirement obligations of Commonwealth Edison Company (ComEd) and PECO            | \$ 7                 | \$ 0.01                    |
| External costs related to Exelon's acquisition of John Deere Renewables, LLC (now known as Exelon Wind)                             | \$ (6)               | \$ (0.01)                  |
| Costs associated with the 2007 Illinois electric rate settlement agreement                                                          | \$ (4)               | \$ (0.01)                  |

Adjusted (non-GAAP) operating earnings for the fourth quarter of 2009 did not include the following items (after tax) that were included in reported GAAP earnings:

|                                                                                            | <u>(in millions)</u> | <u>(per diluted share)</u> |
|--------------------------------------------------------------------------------------------|----------------------|----------------------------|
| Costs associated with the planned retirement of certain Generation fossil generating units | \$ (34)              | \$ (0.05)                  |
| Mark-to-market gains primarily from Generation's economic hedging activities               | \$ 26                | \$ 0.04                    |
| Costs associated with the 2007 Illinois electric rate settlement agreement                 | \$ (15)              | \$ (0.02)                  |
| Costs associated with early debt retirement                                                | \$ (15)              | \$ (0.02)                  |
| Unrealized gains related to NDT fund investments                                           | \$ 14                | \$ 0.02                    |
| Charge associated with ComEd's 2007 settlement agreement with the City of Chicago          | \$ (5)               | \$ (0.01)                  |

## 2011 Earnings Outlook

Exelon introduced a guidance range for 2011 adjusted (non-GAAP) operating earnings of \$3.90 to \$4.20 per share. Operating earnings guidance is based on the assumption of normal weather.

The outlook for 2011 adjusted (non-GAAP) operating earnings for Exelon and its subsidiaries excludes the following items:

- Mark-to-market adjustments from economic hedging activities
- Unrealized gains and losses from NDT fund investments to the extent not offset by contractual accounting as described in the notes to the consolidated financial statements
- Significant impairments of assets, including goodwill
- Changes in decommissioning obligation estimates
- Costs associated with ComEd's 2007 settlement with the City of Chicago
- Financial impacts associated with the planned retirement of fossil generating units
- Other unusual items
- Significant changes to GAAP

## Fourth Quarter and Recent Highlights

- **Oyster Creek Nuclear Station Retirement:** On December 8, 2010, Exelon announced that the company will operate the Oyster Creek Generating Station in New Jersey until 2019, after which the plant will retire. The 625-megawatt (MW) nuclear plant is federally licensed to operate until 2029. Oyster Creek faces a unique set of adverse economic factors and changing environmental regulations that make ending operations in 2019 the best option. Potential additional environmental compliance costs based on evolving water cooling regulatory requirements at both the federal and state government levels created significant regulatory and economic uncertainty. Due to Exelon's decision to retire the plant early, the New Jersey Department of Environmental Protection will not require the company to install cooling towers at Oyster Creek.
- **John Deere Renewables (JDR) Acquisition:** On December 9, 2010, Exelon completed its previously announced acquisition of JDR, a leading operator and developer of wind power, adding 735 MW of clean, renewable energy to Exelon's generation portfolio. The acquisition marked Exelon's entry into owning and operating wind projects. The 36 wind projects in eight states are now called Exelon Wind, a division of Exelon Power. The acquisition provides incremental earnings starting in 2012 and cash flows starting in 2013 and is a key part of Exelon 2020, the company's business strategy to eliminate the equivalent of its 2001 carbon footprint by 2020. Exelon is now halfway to its goal and remains the least carbon-intensive of the large U.S. electric utilities. Approximately 75 percent of the Exelon Wind operating portfolio is already sold under long-term power purchase arrangements. In addition, Exelon has the opportunity to pursue approximately 1,400 MW of new wind projects that are in various stages of development, including 230 MW in advanced stages of development.
- **Nuclear Operations:** Generation's nuclear fleet, including its owned output from the Salem Generating Station, produced 35,115 gigawatt-hours (GWh) in the fourth quarter of 2010, compared with 33,609 GWh in the fourth quarter of 2009. The Exelon-operated nuclear plants achieved a 93.1 percent capacity factor for the fourth quarter of 2010 compared with 89.8 percent for the fourth quarter of 2009. The Exelon-operated nuclear plants completed four

scheduled refueling outages in the fourth quarter of 2010, compared with completing four and beginning a fifth scheduled refueling outage in the fourth quarter of 2009. Three Mile Island (TMI) Unit 1 was shut down from late October 2009 for an extended refueling outage which included the replacement of steam generators. The steam generator replacement increased the number of refueling outage days in the fourth quarter of 2009. As a result, the number of refueling outage days totaled 97 in the fourth quarter of 2010 versus 136 days in the fourth quarter of 2009. The number of non-refueling outage days at the Exelon-operated plants totaled 18 days in the fourth quarter of 2010 compared with 23 days in the fourth quarter of 2009.

For the full year 2010, the Exelon-operated nuclear plants achieved an average capacity factor of 93.9 percent, as compared with 93.6 percent for 2009. The average annual capacity factor for the Exelon-operated plants during the five years ended 2010 was 94.0 percent.

- **Fossil and Hydro Operations:** The equivalent demand forced outage rate for Generation's fossil fleet was 4.6 percent in the fourth quarter of 2010, compared with 12.9 percent in the fourth quarter of 2009. The improvement was largely due to the impact of extended maintenance outages in 2009. The equivalent availability factor for the hydroelectric facilities was 99.8 percent in the fourth quarter of 2010, compared with 99.6 percent in the fourth quarter of 2009.
- **Hedging Update:** Exelon's hedging program involves the hedging of commodity risk for Exelon's expected generation, typically on a ratable basis over a three-year period. Expected generation represents the amount of energy estimated to be generated or purchased through owned or contracted-for capacity. The proportion of expected generation hedged as of December 31, 2010 is 90 to 93 percent for 2011, 67 to 70 percent for 2012 and 32 to 35 percent for 2013. The primary objectives of Exelon's hedging program are to manage market risks and protect the value of its generation and its investment grade balance sheet while preserving its ability to participate in improving long-term market fundamentals.
- **ComEd Electric Distribution Rate Case:** On June 30, 2010, ComEd filed a rate increase request with the Illinois Commerce Commission (ICC) to allow the utility to continue modernizing its electric delivery system and recover the cost of substantial investments made since the last rate filing in 2007. In testimony submitted on January 3, 2011, ComEd revised its requested revenue increase to \$326 million, reflecting certain adjustments made subsequent to its original request of \$396 million. The ICC will determine any increase in rates after an 11-month proceeding with input from all stakeholders. The ICC is expected to issue its decision in late May 2011.
- **PECO Electric and Gas Distribution Rate Cases:** On December 16, 2010, the Pennsylvania Public Utility Commission (PAPUC) approved PECO's settlements with all interested parties regarding the increase in electric and natural gas distribution rates for customers, which became effective on January 1, 2011. The PAPUC approved an increase of \$20 million in annual natural gas distribution revenue, which is approximately 46 percent of the \$44 million originally requested, and a \$225 million increase in annual electric distribution revenue, which is approximately 71 percent of the \$316 million originally requested. Reflecting this and the results of the company's four competitive electric supply procurements, residential electric customer bills will increase on average about 5 percent, or about \$5 a month, beginning in

January 2011. Overall bills for PECO residential natural gas customers will increase on average about 1 percent, or about \$1 a month.

- **Pension Plan Funding:** As a result of accelerated cash benefits associated with recent Federal tax legislation, on January 3, 2011, Exelon announced that its board of directors had authorized contributions to the Exelon pension plans in the first quarter of 2011 totaling \$2.1 billion. This amount includes contributions that Exelon was previously expected to make in 2011. Exelon expects to fund the contributions with \$500 million from cash from operations, \$850 million from the accelerated cash tax benefits, and \$750 million from the tax benefits of making the pension contributions. Exelon expects that the pension funded status will increase from 71 percent at December 31, 2010, to 89 percent projected at December 31, 2011, subject to actual 2011 asset returns and final actuarial valuations.
- **Financing Activities:** On January 18, 2011, ComEd issued \$600 million of 1.625 percent first mortgage bonds due 2014. The net proceeds of the bonds will be used as an interim source of liquidity for the contribution in the first quarter to the pension plans in which ComEd participates. ComEd anticipates receiving tax refunds as a result of both the pension contribution and the recent Federal tax legislation. As a result, the immediate use of the net proceeds to fund the planned contribution will allow those future cash receipts to be available to fund capital investment and for general corporate purposes.

On October 25, 2010, Exelon announced that it had entered into new credit agreements totaling \$94 million with 29 minority and community banks located in the regions the company serves. The lead arranger banks for the credit agreements are Seaway Bank and Trust Company in Chicago, Riverside Community Bank in Rockford, Ill., and United Bank of Philadelphia. The new credit agreements replace a 2009 arrangement for \$67 million. Exelon's minority and community banking program – the only one of its kind in the energy industry – aims to increase the company's business with local and diverse banks in its key markets.

## OPERATING COMPANY RESULTS

**Generation** consists of owned and contracted electric generating facilities, wholesale energy marketing operations and competitive retail sales operations.

Fourth quarter 2010 net income was \$424 million compared with \$425 million in the fourth quarter of 2009. Fourth quarter 2010 net income included (all after tax) mark-to-market losses of \$113 million from economic hedging activities, unrealized gains of \$26 million related to NDT fund investments, costs of \$17 million associated with the planned retirement of certain fossil generating units, a charge of \$6 million for external costs associated with the acquisition of JDR and a charge of \$4 million for costs associated with the 2007 Illinois electric rate settlement. Fourth quarter 2009 net income included (all after-tax) costs of \$34 million associated with the retirement of the fossil generating units, mark-to-market gains of \$26 million from economic hedging activities before the elimination of intercompany transactions, unrealized gains of \$14 million related to NDT fund investments, costs of \$13 million associated with the 2007 Illinois electric rate settlement and costs of \$9 million associated with early debt retirements. Excluding the effects of these items, Generation's net income in the fourth quarter of 2010 increased \$97 million compared with the same quarter in 2009 primarily due to:

- The impact on energy gross margin of higher energy prices under the power purchase agreement with PECO, favorable capacity pricing related to RPM and increased nuclear output largely reflecting fewer outage days.

The increase in net income was partially offset by:

- The impact on energy gross margin of unfavorable market/portfolio conditions and higher nuclear fuel costs; and
- Increased depreciation expense.

Generation's average realized margin on all electric sales, including sales to affiliates and excluding trading activity, was \$41.45 per MWh in the fourth quarter of 2010 compared with \$38.36 per MWh in the fourth quarter of 2009.

**ComEd** consists of the electricity transmission and distribution operations in northern Illinois.

ComEd recorded net income of \$91 million in the fourth quarter of 2010, compared with net income of \$98 million in the fourth quarter of 2009. Fourth quarter net income in 2010 included an after-tax decrease in costs of \$6 million associated with an adjustment to ComEd's asset retirement obligation. Fourth quarter net income in 2009 included after-tax costs of \$5 million for the City of Chicago settlement agreement and after-tax costs of \$2 million associated with the 2007 Illinois electric rate settlement. Excluding the effects of these items, ComEd's net income in the fourth quarter of 2010 was down \$20 million from the same quarter in 2009 primarily reflecting:

- The effect of the September 2010 Illinois Appellate Court ruling;
- Increased operating and maintenance expense; and
- Lower load, partially offset by the effects of favorable weather conditions.

The decrease in net income was partially offset by lower uncollectible accounts expense.

In the fourth quarter of 2010, heating degree-days in the ComEd service territory were up 1.2 percent relative to the same period in 2009 and were 0.6 percent above normal. ComEd's total retail electric deliveries increased by 0.6 percent quarter over quarter, primarily due to gains in deliveries to large commercial and industrial customers.

Weather-normalized retail electric deliveries decreased by 1.2 percent from the fourth quarter of 2009, primarily reflecting a decrease in deliveries to residential customers. For ComEd, weather had a favorable after-tax effect of \$4 million on fourth quarter 2010 earnings relative to 2009 and a favorable after-tax effect of \$1 million relative to normal weather that is incorporated in Exelon's earnings guidance.

**PECO** consists of the electricity transmission and distribution operations and the retail natural gas distribution business in southeastern Pennsylvania.

PECO's net income in the fourth quarter of 2010 was \$21 million, down from \$78 million in the fourth quarter of 2009. Fourth quarter net income in 2010 included an after-tax decrease in costs of \$1 million associated with an adjustment to PECO's asset retirement obligation. Excluding the effect of this item,

PECO's net income in the fourth quarter of 2010 was down \$58 million from the same quarter in 2009 primarily reflecting:

- Decreased CTC revenue, as stranded costs were substantially recovered as of the end of the third quarter 2010, resulting in higher energy prices paid to Generation under the power purchase agreement; and
- Increased operating and maintenance expense, primarily reflecting higher contracting and employee benefits expenses.

The decrease in net income was partially offset by:

- Lower CTC amortization expense as scheduled in accordance with PECO's 1998 Restructuring Settlement with the PAPUC;
- The effects of favorable weather conditions; and
- Lower interest expense on long-term debt.

In the fourth quarter of 2010, heating degree-days in the PECO service territory were up 7.6 percent from 2009 and were 3.2 percent above normal. Total retail electric deliveries were up 1.4 percent from last year, reflecting an increase in deliveries to residential and large commercial and industrial customers. On the retail gas side, deliveries in the fourth quarter of 2010 were up 11.7 percent from the fourth quarter of 2009, primarily driven by the effects of colder weather conditions.

Weather-normalized retail electric deliveries were flat to the fourth quarter of 2009, reflecting a decline in residential and small commercial and industrial deliveries, offset by an increase in large commercial and industrial deliveries. For PECO, weather had a favorable after-tax effect of \$6 million on fourth quarter 2010 earnings relative to 2009 and a favorable after-tax effect of \$2 million relative to normal weather that is incorporated in Exelon's earnings guidance.

#### **Adjusted (non-GAAP) Operating Earnings**

Adjusted (non-GAAP) operating earnings, which generally exclude significant one-time charges or credits that are not normally associated with ongoing operations, mark-to-market adjustments from economic hedging activities and unrealized gains and losses from NDT fund investments, are provided as a supplement to results reported in accordance with GAAP. Management uses such adjusted (non-GAAP) operating earnings measures internally to evaluate the company's performance and manage its operations. Reconciliation of GAAP to adjusted (non-GAAP) operating earnings for historical periods is attached. Additional earnings release attachments, which include the reconciliations on pages 7 and 8, are posted on Exelon's Web site: [www.exeloncorp.com](http://www.exeloncorp.com) and have been furnished to the Securities and Exchange Commission on Form 8-K on January 26, 2011.

**Conference call information:** Exelon has scheduled a conference call for 11:00 AM ET (10:00 AM CT) on January 26, 2011. The call-in number in the U.S. and Canada is 800-690-3108, and the international call-in number is 973-935-8753. If requested, the conference ID number is 34838808. Media representatives are invited to participate on a listen-only basis. The call will be web-cast and archived on Exelon's Web site: [www.exeloncorp.com](http://www.exeloncorp.com). (Please select the Investors page.)

### **Forward Looking Statements**

This press release includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, that are subject to risks and uncertainties. The factors that could cause actual results to differ materially from these forward-looking statements include those discussed herein as well as those discussed in (1) Exelon's 2009 Annual Report on Form 10-K in (a) ITEM 1A. Risk Factors, (b) ITEM 7. Management's Discussion and Analysis of Financial Condition and Results of Operations and (c) ITEM 8. Financial Statements and Supplementary Data: Note 18; (2) Exelon's Third Quarter 2010 Quarterly Report on Form 10-Q in (a) Part II, Other Information, ITEM 1A. Risk Factors, (b) Part 1, Financial Information, ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations and (c) Part I, Financial Information, ITEM 1. Financial Statements: Note 13 and (3) other factors discussed in filings with the Securities and Exchange Commission (SEC) by Exelon Corporation, Commonwealth Edison Company, PECO Energy Company and Exelon Generation Company, LLC (Companies). Readers are cautioned not to place undue reliance on these forward-looking statements, which apply only as of the date of this press release. None of the Companies undertakes any obligation to publicly release any revision to its forward-looking statements to reflect events or circumstances after the date of this press release.

###

*Exelon Corporation is one of the nation's largest electric utilities with more than \$18 billion in annual revenues. The company has one of the industry's largest portfolios of electricity generation capacity, with a nationwide reach and strong positions in the Midwest and Mid-Atlantic. Exelon distributes electricity to approximately 5.4 million customers in northern Illinois and southeastern Pennsylvania and natural gas to approximately 486,000 customers in the Philadelphia area. Exelon is headquartered in Chicago and trades on the NYSE under the ticker EXC.*

- (a) Results reported in accordance with accounting principles generally accepted in the United States (GAAP).  
(b) Includes amounts for various legislative and/or regulatory programs that are recoverable from customers on a full and current basis through a reconcilable automatic adjustment clause. An equal and offsetting amount has been reflected in operating revenues.  
(c) Adjustment to exclude the impact of the 2007 Illinois electric rate settlement.  
(d) Adjustment to exclude the mark-to-market impact of Exelon's economic hedging activities.  
(e) Adjustment to exclude costs associated with the planned retirement of fossil generating units.  
(f) Adjustment to exclude external costs associated with Exelon's acquisition of John Deere Renewables, LLC (JDR) (now known as Exelon Wind).  
(g) Adjustment to exclude a decrease in 2010 in ComEd and PECO's asset retirement obligations.  
(h) Adjustment to exclude unrealized gains in 2010 and 2009 associated with Generation's NDT fund investments and the associated contractual accounting relating to income taxes.  
(i) Adjustment to exclude costs associated with ComEd's 2007 settlement agreement with the City of Chicago.  
(j) Adjustment to exclude costs associated with early debt retirements.

- (a) Results reported in accordance with GAAP.
- (b) Includes amounts for various legislative and/or regulatory programs that are recoverable from customers on a full and current basis through a reconcilable automatic adjustment clause. An equal and offsetting amount has been reflected in operating revenues.
- (c) Adjustment to exclude the impact of the 2007 Illinois electric rate settlement.
- (d) Adjustment to exclude costs associated with ComEd's 2007 settlement agreement with the City of Chicago.
- (e) Adjustment to exclude the mark-to-market impact of Exelon's economic hedging activities.
- (f) Adjustment to exclude a non-cash charge for the impairment of certain SO2 emission allowances as a result of declining market prices since the release of the EPA's proposed Transport Rule in the third quarter of 2010.
- (g) Adjustment to exclude a non-cash charge related to the passage of Federal health care legislation that reduces the deductibility of retiree prescription drug benefits for Federal income tax purposes to the extent they are reimbursed under Medicare Part D.
- (h) Adjustment to exclude costs associated with the planned retirement of fossil generating units.
- (i) Adjustment to exclude external costs associated with Exelon's acquisition of JDR (now known as Exelon Wind) and the proposed acquisition of NRG, which was terminated in July 2009.
- (j) Adjustment to exclude a decrease in 2010 in ComEd and PECO's asset retirement obligations and a decrease in 2009 in Generation's decommissioning obligation.
- (k) Adjustment to exclude 2010 and 2009 remeasurements of income tax uncertainties and a 2009 change in state deferred income taxes.
- (l) Adjustment to exclude unrealized gains in 2010 and 2009 associated with Generation's NDT fund investments and the associated contractual accounting relating to income taxes.
- (m) Adjustment to exclude 2009 charges associated with the elimination of management and staff positions.
- (n) Adjustment to exclude a non-cash charge for the impairment of certain of Generation's Texas plants.
- (o) Adjustment to exclude costs associated with early debt retirements.

- (1) Reflects the impact of unrealized gains in 2009 and 2010 on NDT fund investments to the extent not offset by contractual accounting as described in the notes to the consolidated financial statements.
- (2) Reflects incremental accelerated depreciation, inventory write-downs and severance costs associated with the planned retirement of four fossil generating units.
- (3) Primarily reflects the impact of decreased planned and unplanned nuclear outage days in 2010, including Salem.
- (4) Reflects the impact of higher nuclear fuel prices.
- (5) Primarily reflects the impact of a decrease in realized market prices for the sale of energy.
- (6) Reflects decreased CTC revenues at PECO as scheduled in connection with the end of the transition period, which resulted in higher energy prices paid to Generation under the PPA. Generation and PECO's marginal tax rate differences are reflected at Exelon Corporate.
- (7) Primarily reflects increased collection activities at ComEd.
- (8) Primarily reflects the impact of increased wages and incentive compensation benefits, as well as the impact of inflation related to contracting and materials expense.
- (9) Primarily reflects the 2010 impact of a nuclear insurance credit at Generation.
- (10) Primarily reflects the impact of a lower assumed discount rate used in 2010 as compared to 2009 to calculate the pension and other postretirement benefit obligations and costs.
- (11) Primarily reflects increased depreciation expense across the operating companies due to ongoing capital expenditures and the impact of a first quarter 2010 depreciation study at Generation.
- (12) Reflects decreased amortization expense of CTCs at PECO as scheduled in connection with the end of the transition period.
- (13) Primarily reflects realized gains associated with NDT funds at Generation as a result of favorable market conditions in 2010.
- (14) Reflects external costs incurred associated with Exelon's acquisition of JDR (now known as Exelon Wind).
- (15) Reflects a decrease in ComEd and PECO's asset retirement obligations primarily related to transmission and distribution substation assets.

- (1) Reflects the impact of unrealized gains in 2009 and 2010 on NDT fund investments to the extent not offset by contractual accounting as described in the notes to the consolidated financial statements.
- (2) Reflects a decrease in 2009 of Generation's decommissioning obligation liability primarily related to the former AmerGen nuclear plants and a decrease in 2010 of ComEd and PECO's asset retirement obligations primarily related to transmission and distribution substation assets.
- (3) Reflects external costs incurred in 2009 associated with Exelon's proposed acquisition of NRG, which was terminated in July 2009.
- (4) Reflects the impact of the impairment of certain of Generation's Texas plants.
- (5) Reflects severance expense associated with the elimination of management and staff positions in 2009.
- (6) For 2009, reflects the impacts of a remeasurement of income tax uncertainties related to ComEd's 1999 sale of fossil generating units and a reassessment of anticipated apportionment of Exelon's income. For 2010, reflects the impact of a remeasurement of income tax uncertainties related to ComEd's 1999 sale of fossil generating assets and related to CTCs received by PECO.
- (7) Reflects incremental accelerated depreciation, inventory write-downs and severance costs associated with the planned retirement of four fossil generating units.
- (8) Primarily reflects the impact of increased unplanned nuclear outage days in the Mid-Atlantic region in 2010, including Salem.
- (9) Reflects the impact of higher nuclear fuel prices.
- (10) Primarily reflects the impact of a decrease in realized market prices for the sale of energy.
- (11) Reflects increased CTC revenues at PECO resulting in lower energy prices paid to Generation under the PPA. Generation and PECO's marginal tax rate differences are reflected at Exelon Corporate.
- (12) Primarily reflects increased collection activities at ComEd.
- (13) Reflects a credit for the recovery of 2008 and 2009 bad debt expense pursuant to the ICC's February 2010 approval of a bad debt rider, partially offset by a contribution mandated by Illinois legislation.
- (14) Primarily reflects the impact of increased wages and incentive compensation, as well as the impact of inflation related to contracting and materials expense (exclusive of incremental storm costs as disclosed in number 15 below).
- (15) Primarily reflects increased storm costs in the ComEd and PECO service territories and increased costs associated with Exelon Transmission Company at Corporate, partially offset by reduced stock-based compensation costs across the operating companies and the 2010 impact of a nuclear insurance credit at Generation.
- (16) Primarily reflects the impact of a lower assumed discount rate used in 2010 as compared to 2009 to calculate the pension and other postretirement benefit obligations and costs.

- (17) Primarily reflects increased depreciation expense across the operating companies due to ongoing capital expenditures and the impact of a first quarter 2010 depreciation study at Generation.
- (18) Reflects increased scheduled amortization expense of CTCs at PECO, which became fully amortized at the end of the transition period on December 31, 2010.
- (19) Primarily reflects an increase in Generation's tax benefits associated with an increase in the manufacturing deduction rate, partially offset by the incremental impact on the 2010 manufacturing tax deduction associated with the pension contribution to be made in the first quarter of 2011.
- (20) Primarily reflects lower interest expense at PECO and Exelon Corporate due to lower outstanding debt, partially offset by higher interest expense at Generation due to higher outstanding debt.
- (21) Primarily reflects realized gains associated with NDT funds at Generation as a result of favorable market conditions in 2010 and projected refunds related to Illinois electric distribution taxes at ComEd, partially offset by increased gross receipts tax at PECO.
- (22) Reflects a non-cash charge related to the passage of Federal health care legislation that reduces the deductibility of retiree prescription drug benefits for Federal income tax purposes to the extent they are reimbursed under Medicare Part D.
- (23) Reflects the impairment of certain SO2 emission allowances as a result of declining market prices since the release of the EPA's proposed Transport Rule during the third quarter of 2010.
- (24) Reflects external costs incurred associated with Exelon's acquisition of JDR (now known as Exelon Wind).

- (a) Results reported in accordance with GAAP.
- (b) Adjustment to exclude the impact of the 2007 Illinois electric rate settlement.
- (c) Adjustment to exclude the mark-to-market impact of Generation's economic hedging activities.
- (d) Adjustment to exclude costs associated with Exelon's acquisition of JDR (now known as Exelon Wind).
- (e) Adjustment to exclude costs associated with the planned retirement of fossil generating units.
- (f) Adjustment to exclude unrealized gains in 2010 and 2009 associated with Generation's NDT fund investments to the extent not offset by contractual accounting as described in the notes to the consolidated financial statements.
- (g) Adjustment to exclude costs associated with early debt retirements.
- (h) Adjustment to exclude a non-cash charge for the impairment of certain SO2 emission allowances as a result of declining market prices since the release of the EPA's proposed Transport Rule in the third quarter of 2010.
- (i) Adjustment to exclude a non-cash charge related to the passage of Federal health care legislation that reduces the deductibility of retiree prescription drug benefits for Federal income tax purposes to the extent they are reimbursed under Medicare Part D.
- (j) Adjustment to exclude a 2010 remeasurement of income tax uncertainties.
- (k) Adjustment to exclude a decrease in 2009 in Generation's decommissioning obligation.
- (l) Adjustment to exclude 2009 charges associated with the elimination of management and staff positions.
- (m) Adjustment to exclude a non-cash charge for the impairment of certain of Generation's Texas plants.
- (n) Adjustment to exclude a change in state deferred income taxes.

(a) Results reported in accordance with GAAP.

(b) Includes amounts for various legislative and/or regulatory programs that are recoverable from customers on a full and current basis through a reconcilable automatic adjustment clause. An equal and offsetting amount has been reflected in operating revenues.

(c) Adjustment to exclude a decrease in 2010 in ComEd's asset retirement obligation.

(d) Adjustment to exclude the impact of the 2007 Illinois electric rate settlement.

(e) Adjustment to exclude costs associated with ComEd's 2007 settlement agreement with the City of Chicago.

(f) Adjustment to exclude a non-cash charge related to the passage of Federal health care legislation that reduces the deductibility of retiree prescription drug benefits for Federal income tax purposes to the extent they are reimbursed under Medicare Part D.

(g) Adjustment to exclude 2010 and 2009 remeasurements of income tax uncertainties.

(h) Adjustment to exclude 2009 charges associated with the elimination of management and staff positions.

(a) Results reported in accordance with GAAP.

(b) Includes amounts for various legislative and/or regulatory programs that are recoverable from customers on a full and current basis through a reconcilable automatic adjustment clause. An equal and offsetting amount has been reflected in operating revenues.

(c) Adjustment to exclude a decrease in 2010 PECO's asset retirement obligation.

(d) Adjustment to exclude a non-cash charge related to the passage of Federal health care legislation that reduces the deductibility of retiree prescription drug benefits for Federal income tax purposes to the extent they are reimbursed under Medicare Part D.

(e) Adjustment to exclude a 2010 remeasurement of income tax uncertainties.

(f) Adjustment to exclude 2009 charges associated with the elimination of management and staff positions.

(a) Results reported in accordance with GAAP.

(b) Adjustment to exclude costs associated with early debt retirements.

(c) Adjustment to exclude a non-cash charge related to the passage of Federal health care legislation that reduces the deductibility of retiree prescription drug benefits for Federal income tax purposes to the extent they are reimbursed under Medicare Part D.

(d) Adjustment to exclude 2010 and 2009 remeasurements of income tax uncertainties.

(e) Adjustment to exclude external costs associated with Exelon's proposed acquisition of NRG, which was terminated in July 2009.

(f) Adjustment to exclude 2009 charges associated with the elimination of management and staff positions.

- (a) Includes Generation's proportionate share of the output of its nuclear generating plants, including Salem.
- (b) Includes New England generation.
- (c) ComEd line item represents sales under the 2006 ComEd Auction. Settlements of the ComEd swap and sales under the Request for Proposal (RFP) are included within Market and Retail sales. In addition, renewable energy credit sales to affiliates have been included within Market and Retail sales.
- (d) Excludes retail gas activity, trading portfolio and other operating revenue.
- (e) Total sales do not include trading volume of 740 GWhs, 1,077 GWhs, 889 GWhs, 920 GWhs and 1,599 GWhs for the three months ended December 31, 2010, September 30, 2010, June 30, 2010, March 31, 2010 and December 31, 2009, respectively.
- (f) Excludes the mark-to-market impact of Generation's economic hedging activities.
- (g) Results of transactions with PECO and ComEd are included in the Mid-Atlantic and Midwest regions, respectively.
- (h) Represents the average for the quarter.

- (a) Includes Generation's proportionate share of the output of its nuclear generating plants, including Salem.
- (b) Includes New England generation.
- (c) ComEd line item represents sales under the 2006 ComEd Auction. Settlements of the ComEd swap and sales under the RFP are included within Market and Retail sales. In addition, renewable energy credit sales to affiliates have been included within Market and Retail sales.
- (d) Excludes retail gas activity, trading portfolio and other operating revenue.
- (e) Total sales do not include trading volume of 3,625 GWhs and 7,578 GWhs for the years ended December 31, 2010 and 2009, respectively.
- (f) Excludes the mark-to-market impact of Generation's economic hedging activities.
- (g) Results of transactions with PECO and ComEd are included in the Mid-Atlantic and Midwest regions, respectively.
- (h) Represents the average for the years ended December 31, 2010 and 2009, respectively.

- (a) Reflects delivery revenues and volumes from customers purchasing electricity directly from ComEd and customers purchasing electricity from a competitive electric generation supplier as all customers are assessed delivery charges. For customers purchasing electricity from ComEd, revenue also reflects the cost of energy.
- (b) Other revenue primarily includes transmission revenue from PJM Interconnection, LLC (PJM).

- (a) Reflects delivery revenues and volumes from customers purchasing electricity directly from PECO and customers purchasing electricity from a competitive electric generation supplier as all customers are assessed delivery charges and a CTC. For customers purchasing electricity from PECO, revenue should also reflect the cost of energy.
- (b) Other revenue includes transmission revenue from PJM and wholesale revenues.

# Earnings Conference Call 4<sup>th</sup> Quarter 2010

January 26, 2011

## Forward-Looking Statements

This presentation includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, that are subject to risks and uncertainties. The factors that could cause actual results to differ materially from these forward-looking statements include those discussed herein as well as those discussed in (1) Exelon's 2009 Annual Report on Form 10-K in (a) ITEM 1A. Risk Factors, (b) ITEM 7. Management's Discussion and Analysis of Financial Condition and Results of Operations and (c) ITEM 8. Financial Statements and Supplementary Data: Note 18; (2) Exelon's Third Quarter 2010 Quarterly Report on Form 10-Q in (a) Part II, Other Information, ITEM 1A. Risk Factors, (b) Part 1, Financial Information, ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations and (c) Part I, Financial Information, ITEM 1. Financial Statements: Note 13 and (3) other factors discussed in filings with the Securities and Exchange Commission (SEC) by Exelon Corporation, Commonwealth Edison Company, PECO Energy Company and Exelon Generation Company, LLC (Companies). Readers are cautioned not to place undue reliance on these forward-looking statements, which apply only as of the date of this presentation. None of the Companies undertakes any obligation to publicly release any revision to its forward-looking statements to reflect events or circumstances after the date of this presentation.

This presentation includes references to adjusted (non-GAAP) operating earnings and non-GAAP cash flows that exclude the impact of certain factors. We believe that these adjusted operating earnings and cash flows are representative of the underlying operational results of the Companies. Please refer to the appendix to this presentation for a reconciliation of adjusted (non-GAAP) operating earnings to GAAP earnings. Please refer to the footnotes of the following slides for a reconciliation of non-GAAP cash flows to GAAP cash flows.

## 2010: Another Strong Year for Exelon

- ✓ Eighth consecutive year with nuclear capacity factor above 93%
- ✓ 59 MW added through nuclear uprate program
- ✓ Acquired John Deere Renewables
- ✓ Announced early retirement of Oyster Creek

- ✓ Strong reliability scores despite significant storm activity
- ✓ Highest customer satisfaction scores in > 5 yrs

- ✓ Completed electric and gas distribution rate cases
- ✓ Best customer satisfaction scores in PECO history

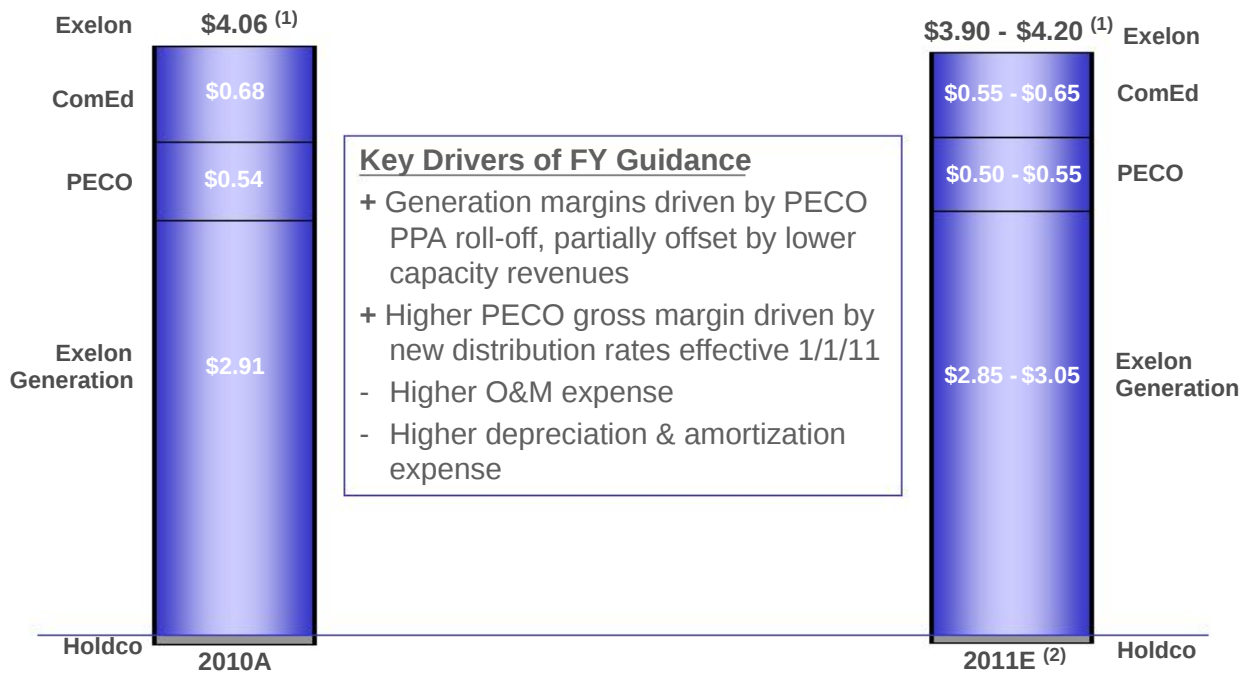

- ✓ RITE line project announced

- ✓ **Exemplary year of financial and operational performance**
  - Operating earnings of \$4.06/share <sup>(1)</sup>
  - 2010 Cash from operations of \$5.3 billion <sup>(2)</sup>
  - Returned \$1.4 billion in cash to shareholders through dividends
- ✓ **Continuing to position Exelon for cleaner energy future**

(1) Refer to Earnings Release Attachments for additional details and to the Appendix for a reconciliation of adjusted (non-GAAP) operating EPS to GAAP EPS.

(2) 2010 Cash from operations excludes counterparty collateral and includes net cash from investing activities other than capital expenditures, acquisition of Exelon Wind and change in restricted cash.

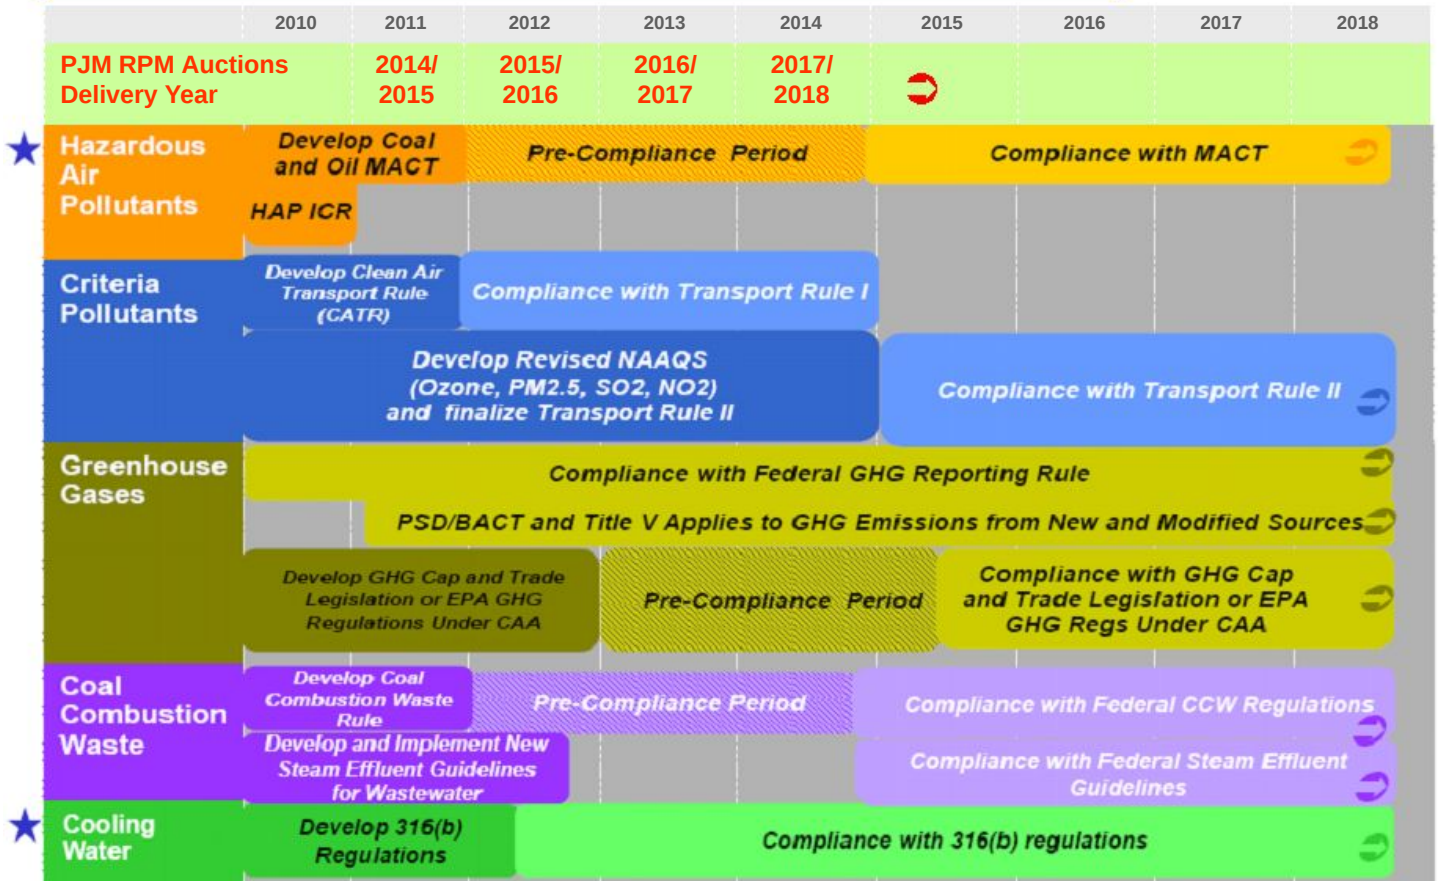

# 2011 Operating Earnings Guidance

**Introducing 2011 operating earnings guidance of \$3.90 – \$4.20/share and 1Q 2011 guidance of \$1.00 – \$1.10/share<sup>(1)</sup>**

(1) Refer to Earnings Release Attachments for additional details and to the Appendix for a reconciliation of adjusted (non-GAAP) operating EPS to GAAP EPS.  
 (2) Earnings guidance for OpCos may not add up to consolidated EPS guidance.

# EPA Regulations Will Move Forward in 2011

Notes: RPM auctions take place annually in May.  
 For definition of the EPA regulations referred to on this slide, please see the EPA's Terms of Environment (<http://www.epa.gov/OCEPaterms/>).

- **2010 operating earnings of \$4.06/share<sup>(1)</sup> in line with expectations**
  - Higher capacity and energy (PECO PPA) revenues at ExGen
  - Higher earnings (vs. 2009) at ComEd
- **2011 earnings guidance of \$3.90 - \$4.20/share<sup>(1)</sup>**
  - Expiration of PECO PPA allows ExGen to sell additional energy at market prices, offset by lower RPM capacity prices and higher costs
  - New distribution rates effective 1/1/11 at PECO
- **Strong cash flows in 2011**
  - Expect to generate \$4.3 billion cash from operations in 2011
  - Increasing investment in growth projects at ExGen and Utilities
- **Efficient use of cash benefits from bonus depreciation**
  - \$2.1 billion pension contribution proactively reduces pension costs and future contributions while improving pension funding status

(1) Refer to Earnings Release Attachments for additional details and to the Appendix for a reconciliation of adjusted (non-GAAP) operating EPS to GAAP EPS.

# Exelon Generation Operating EPS Contribution

## Key Drivers – 4Q10 vs. 4Q09 <sup>(1)</sup>

- Higher energy prices under the PECO PPA, offset at PECO: \$0.10
- Favorable RPM capacity pricing: \$0.07
- Higher nuclear volume: \$0.04
- Higher nuclear fuel costs: \$(0.02)
- Higher depreciation expense: \$(0.03)

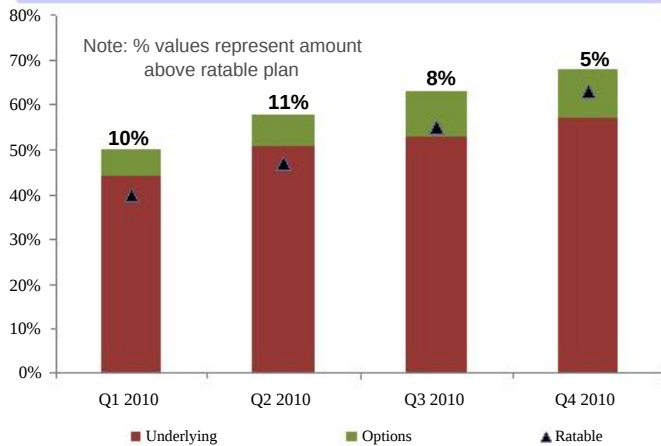

| Outage Days <sup>(2)</sup> | 4Q09 | 4Q10 |
|----------------------------|------|------|
| Refueling                  | 136  | 97   |
| Non-refueling              | 23   | 18   |

(1) Refer to the Earnings Release Attachments for additional details and to the Appendix for a reconciliation of adjusted (non-GAAP) operating EPS to GAAP EPS.

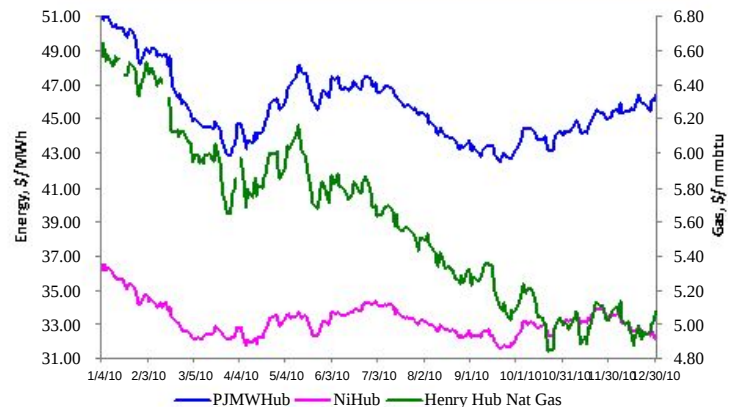

(2) Outage days exclude Salem.

Note: PPA = Power Purchase Agreement

## 2012 Quarterly Hedge Level vs. Ratable Plan

## 2012 Historical Energy & Gas Prices

### ➤ Normal practice is to hedge commodity risk on a ratable basis over three years

- Maintain flexibility from quarter to quarter
- Use gas and power put options to capture potential upside while providing downside price protection

### ➤ Using our perspective on the markets to time sales, thereby adding value

- PJMW energy prices increased in 4Q 2010, driven by higher eastern coal prices
- NiHub energy prices and Henry Hub natural gas prices remained relatively stable in 4Q 2010
- Slowed down pace of hedging in Q3 & Q4 to recognize future upside from environmental regulations and economic recovery

**Exelon's ratable hedging program provides flexibility to time sales based on fundamental view of the market**

# ComEd Operating EPS Contribution

## Key Drivers – 4Q10 vs. 4Q09 <sup>(1)</sup>

- Appellate Court ruling: \$(0.02)
- Higher O&M expense: \$(0.01)

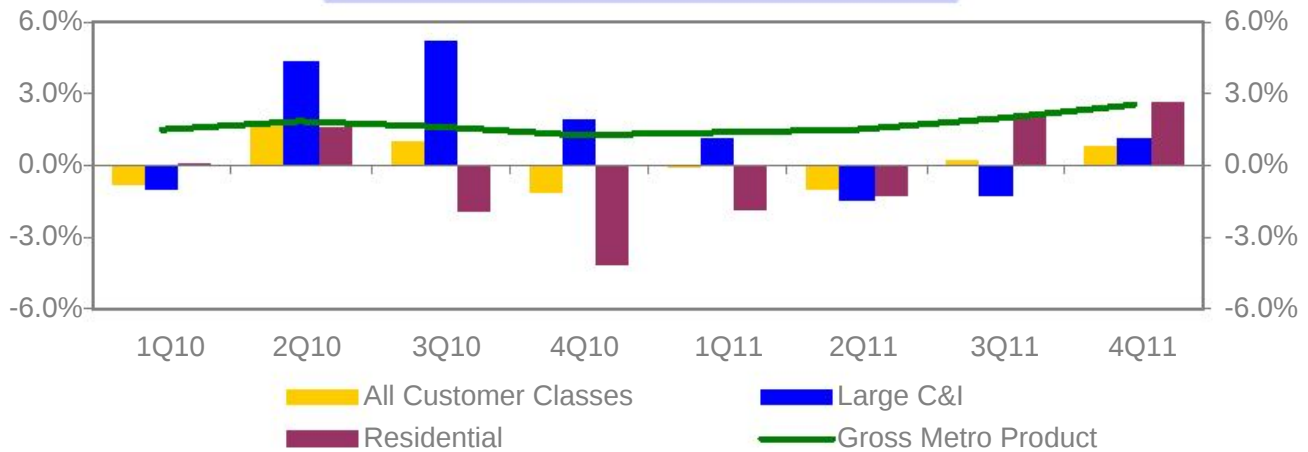

|                     | 4Q10   |        |          |
|---------------------|--------|--------|----------|
|                     | Actual | Normal | % Change |
| Heating Degree-Days | 2,292  | 2,278  | 0.6%     |
| Cooling Degree-Days | 15     | 7      | 114%     |

(1) Refer to the Earnings Release Attachments for additional details and to the Appendix for a reconciliation of adjusted (non-GAAP) operating EPS to GAAP EPS.

# ComEd Load Trends

## Weather-Normalized Load Year-over-Year

### Key Economic Indicators

|                                                                       | Chicago | U.S. |
|-----------------------------------------------------------------------|---------|------|
| Unemployment rate <sup>(1)</sup>                                      | 9.3%    | 9.4% |
| 2010 annualized growth in gross domestic/metro product <sup>(2)</sup> | 1.6%    | 2.8% |

# Operating O&M Outlook

- 2010 Operating O&M below 2008 levels for second consecutive year
- One-time savings in 2010 included executive salary freezes and reduced compensation benefits
- Anticipate annual O&M growth rate of ~2% for 2011-2013

**Estimated 2011 O&M represents a new “base” level for operating O&M**

(1) Amounts may not add due to rounding. Refer to slide 44 for a reconciliation of GAAP O&M to Operating O&M.

**The decrease in pension expense in 2011 is primarily due to the \$2.1 billion pension contribution, partially offset by the impacts of lower discount rates and a decrease in EROA**

(1) Pension expense amounts exclude settlement charges.

(2) Management considers various factors when making pension funding decisions, including actuarially determined minimum contribution requirements under ERISA, contributions required to avoid benefit restrictions and at-risk status as defined by the Pension Protection Act of 2006 (the Act), management of the pension obligation and regulatory implications. The Act requires the attainment of certain funding levels to avoid benefit restrictions (such as an inability to pay lump sums or to accrue benefits prospectively), and at-risk status (which triggers higher minimum contribution requirements and participant notification).

Note: Slide provided for illustrative purposes and not intended to represent a forecast of future outcomes. Assumes an ~25% capitalization of pension and OPEB costs.

# 2011 Pension Contribution

## Pension Contributions

### ➤ \$2.1 billion contribution to pension in 2011

- **Timing:** ~\$850 million funded by the accelerated cash benefits generated as a result of bonus depreciation
- **Tax efficient:** Income tax deduction of pension contribution creates \$750 million of cash benefit
- **Economic:** Reduces estimated future pension expense, lowers future minimum funding requirements and reduces volatility

### ➤ Improves financial flexibility

- Creates debt capacity for future growth
- Improves ability to weather commodity cycle in 2012 and 2013 and maintain the dividend

### ➤ Contributes to improved pension funded status of 71% at 12/31/10, projected to be 89% at 12/31/11

\* Original Plan reflects preliminary 2010 underlying assumptions (including discount rate and asset returns)

(1) Assumes an ~25% capitalization rate.

(1) Excludes counterparty collateral activity.

(2) Cash Flow from Operations primarily includes net cash flows provided by operating activities and net cash flows used in investing activities other than capital expenditures.

(3) Assumes 2011 dividend of \$2.10/share. Dividends are subject to declaration by the Board of Directors.

(4) Includes \$475 million in Nuclear Uprates and \$225 million for Exelon Wind spend.

(5) Represents new business, smart grid/smart meter investment and transmission growth projects.

(6) Excludes ComEd's \$191 million of tax-exempt bonds that are backed by letters of credit (LOCs). Excludes PECO's \$225 million Accounts Receivable (A/R) Agreement with Bank of Tokyo. PECO's A/R Agreement was extended in accordance with its terms through September 6, 2011.

(7) "Other" includes proceeds from options and expected changes in short-term debt.

(8) Includes cash flow activity from Holding Company, eliminations, and other corporate entities.

For definition of the EPA regulations referred to on this slide, please see the EPA's Terms of Environment (<http://www.epa.gov/OCEPAterms/>).

# **Exelon Generation Hedging Disclosures**

(as of December 31, 2010)

## Important Information

The following slides are intended to provide additional information regarding the hedging program at Exelon Generation and to serve as an aid for the purposes of modeling Exelon Generation's gross margin (operating revenues less purchased power and fuel expense). The information on the following slides is not intended to represent earnings guidance or a forecast of future events. In fact, many of the factors that ultimately will determine Exelon Generation's actual gross margin are based upon highly variable market factors outside of our control. The information on the following slides is as of December 31, 2010. We update this information on a quarterly basis.

Certain information on the following slides is based upon an internal simulation model that incorporates assumptions regarding future market conditions, including power and commodity prices, heat rates, and demand conditions, in addition to operating performance and dispatch characteristics of our generating fleet. Our simulation model and the assumptions therein are subject to change. For example, actual market conditions and the dispatch profile of our generation fleet in future periods will likely differ – and may differ significantly – from the assumptions underlying the simulation results included in the slides. In addition, the forward-looking information included in the following slides will likely change over time due to continued refinement of our simulation model and changes in our views on future market conditions.

# Portfolio Management Objective

Align Hedging Activities with Financial Commitments

## ➤ Exelon's hedging program is designed to protect the long-term value of our generating fleet and maintain an investment-grade balance sheet

- Hedge enough commodity risk to meet future cash requirements if prices drop
- Consider: financing policy (credit rating objectives, capital structure, liquidity); spending (capital and O&M); shareholder value return policy

## ➤ Consider market, credit, operational risk

## ➤ Approach to managing volatility

- Increase hedging as delivery approaches
- Have enough supply to meet peak load
- Purchase fossil fuels as power is sold
- Choose hedging products based on generation portfolio – sell what we own

Portfolio Management Over Time →

## ➤ Power Team utilizes several product types and channels to market

- Wholesale and retail sales
- Block products
- Load-following products and load auctions
- Put/call options
- Heat rate options
- Fuel products
- Capacity
- Renewable credits

➤ **Our normal practice is to hedge commodity risk on a ratable basis over the three years leading to the spot market**

- Carry operational length into spot market to manage forced outage and load-following risks
- By using the appropriate product mix, expected generation hedged approaches the mid-90s percentile as the delivery period approaches
- Participation in larger procurement events, such as utility auctions, and some flexibility in the timing of hedging may mean the hedge program is not strictly ratable from quarter to quarter

**Percentage of Expected  
Generation Hedged**

**=  $\frac{\text{Equivalent MWs Sold}}{\text{Expected Generation}}$**

- How many equivalent MW have been hedged at forward market prices; all hedge products used are converted to an equivalent average MW volume
- Takes ALL hedges into account whether they are power sales or financial products

## Exelon Generation Open Gross Margin and Reference Prices

|                                                                       | 2011           | 2012           | 2013           |
|-----------------------------------------------------------------------|----------------|----------------|----------------|
| <b>Estimated Open Gross Margin (\$ millions)</b> <sup>(1)(2)(3)</sup> | <b>\$5,200</b> | <b>\$5,050</b> | <b>\$5,700</b> |

Open gross margin assumes all expected generation is sold at the Reference Prices listed below

### Reference Prices <sup>(1)</sup>

|                                                      |         |         |         |
|------------------------------------------------------|---------|---------|---------|
| Henry Hub Natural Gas (\$/MMBtu)                     | \$4.56  | \$5.08  | \$5.33  |
| NI-Hub ATC Energy Price (\$/MWh)                     | \$30.69 | \$32.38 | \$35.09 |
| PJM-W ATC Energy Price (\$/MWh)                      | \$45.45 | \$46.41 | \$48.25 |
| ERCOT North ATC Spark Spread (\$/MWh) <sup>(4)</sup> | \$1.12  | \$0.82  | \$1.84  |

(1) Based on December 31, 2010 market conditions.

(2) Gross margin is defined as operating revenues less fuel expense and purchased power expense, excluding the impact of decommissioning and other incidental revenues. Open gross margin is estimated based upon an internal model that is developed by dispatching our expected generation to current market power and fossil fuel prices. Open gross margin assumes there is no hedging in place other than fixed assumptions for capacity cleared in the RPM auctions and uranium costs for nuclear power plants. Open gross margin contains assumptions for other gross margin line items such as various ISO bill and ancillary revenues and costs and PPA capacity revenues and payments. The estimation of open gross margin incorporates management discretion and modeling assumptions that are subject to change.

(3) As of December 31, 2010 disclosure, Exelon Wind included. Assets in IL, MI and MN are in Midwest region and assets in ID, KS, MO, OR and TX are in South and West region.

(4) ERCOT North ATC spark spread using Houston Ship Channel Gas, 7,200 heat rate, \$2.50 variable O&M.

## Generation Profile

|                                                                | 2011           | 2012           | 2013           |

| <b>Percentage of Expected Generation Hedged <sup>(2)</sup></b> | <b>90-93%</b>  | <b>67-70%</b>  | <b>32-35%</b>  |
| Midwest                                                        | 91-94          | 69-72          | 31-34          |
| Mid-Atlantic                                                   | 93-96          | 67-70          | 36-39          |
| South & West                                                   | 70-73          | 51-54          | 39-42          |
| <b>Effective Realized Energy Price (\$/MWh) <sup>(3)</sup></b> |                |                |                |
| Midwest                                                        | \$43.00        | \$41.50        | \$43.50        |
| Mid-Atlantic                                                   | \$57.00        | \$50.50        | \$51.50        |
| South & West                                                   | \$2.50         | \$(1.00)       | \$(3.50)       |

(1) Expected generation represents the amount of energy estimated to be generated or purchased through owned or contracted for capacity. Expected generation is based upon a simulated dispatch model that makes assumptions regarding future market conditions, which are calibrated to market quotes for power, fuel, load following products, and options. Expected generation assumes 12 refueling outages in 2011 and 10 refueling outages in 2012 and 2013 at Exelon-operated nuclear plants and Salem. Expected generation assumes capacity factors of 93.0%, 93.6% and 93.1% in 2011, 2012 and 2013 at Exelon-operated nuclear plants. These estimates of expected generation in 2012 and 2013 do not represent guidance or a forecast of future results as Exelon has not completed its planning or optimization processes for those years.

(2) Percent of expected generation hedged is the amount of equivalent sales divided by the expected generation. Includes all hedging products, such as wholesale and retail sales of power, options, and swaps. Uses expected value on options. Reflects decision to permanently retire Cromby Station and Eddystone Units 1&2 as of May 31, 2011.

(3) Effective realized energy price is representative of an all-in hedged price, on a per MWh basis, at which expected generation has been hedged. It is developed by considering the energy revenues and costs associated with our hedges and by considering the fossil fuel that has been purchased to lock in margin. It excludes uranium costs and RPM capacity revenue, but includes the mark-to-market value of capacity contracted at prices other than RPM clearing prices including our load obligations. It can be compared with the reference prices used to calculate open gross margin in order to determine the mark-to-market value of Exelon Generation's energy hedges.

## Exelon Generation Gross Margin Sensitivities (with Existing Hedges)

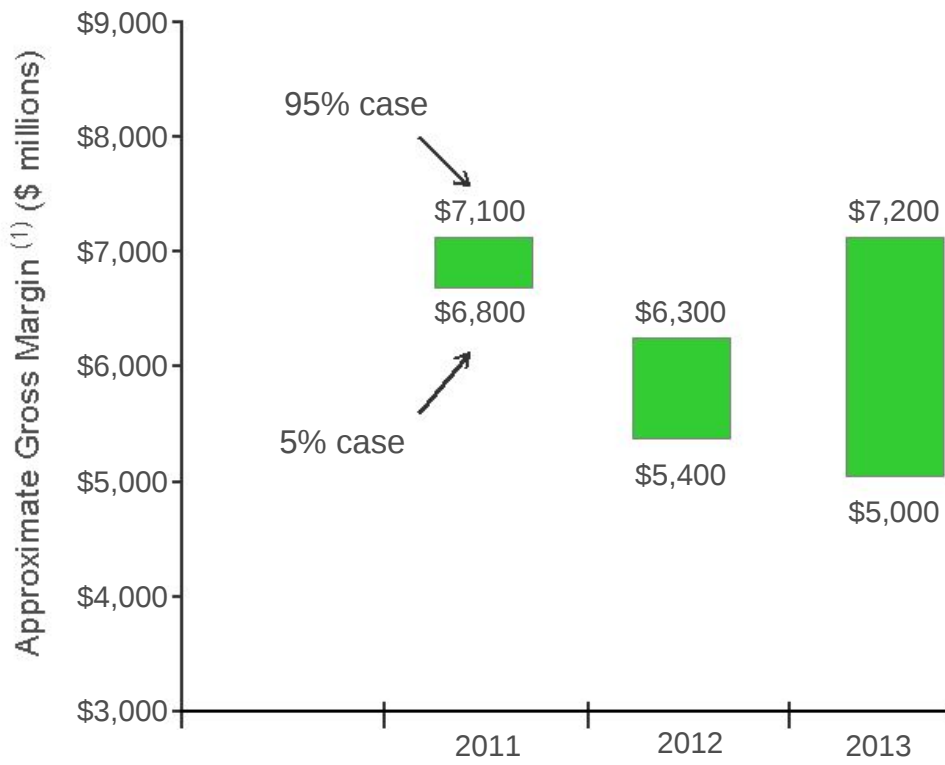

|                                                                                    | 2011     | 2012     | 2013     |

(1) Based on December 31, 2010 market conditions and hedged position. Gas price sensitivities are based on an assumed gas-power relationship derived from an internal model that is updated periodically. Power prices sensitivities are derived by adjusting the power price assumption while keeping all other prices inputs constant. Due to correlation of the various assumptions, the hedged gross margin impact calculated by aggregating individual sensitivities may not be equal to the hedged gross margin impact calculated when correlations between the various assumptions are also considered.

# Exelon Generation Gross Margin Upside / Risk (with Existing Hedges)

(1) Represents an approximate range of expected gross margin, taking into account hedges in place, between the 5th and 95th percent confidence levels assuming all unhedged supply is sold into the spot market. Approximate gross margin ranges are based upon an internal simulation model and are subject to change based upon market inputs, future transactions and potential modeling changes. These ranges of approximate gross margin in 2012 and 2013 do not represent earnings guidance or a forecast of future results as Exelon has not completed its planning or optimization processes for those years. The price distributions that generate this range are calibrated to market quotes for power, fuel, load following products, and options as of December 31, 2010.

# Illustrative Example

of Modeling Exelon Generation 2011 Gross Margin  
(with Existing Hedges)

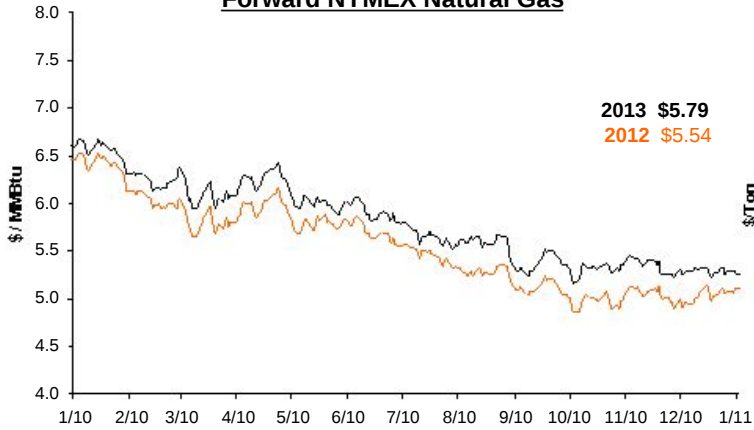

|                                                                                                                 | Midwest                                                                                                                                                                   | Mid-Atlantic                                                             | South & West                                                           |
|-----------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------|------------------------------------------------------------------------|
| <b>Step 1 Start with fleetwide open gross margin</b>                                                            | ←————— \$5.20 billion —————→                                                                                                                                              |                                                                          |                                                                        |
| <b>Step 2 Determine the mark-to-market value of energy hedges</b>                                               | 100,600GWh * 92% *<br>(\$43.00/MWh-\$30.69MWh)<br><b>= \$1.13 billion</b>                                                                                                 | 56,800GWh * 94% *<br>(\$57.00/MWh-\$45.45MWh)<br><b>= \$0.62 billion</b> | 9,500GWh * 71% *<br>(\$2.50/MWh-\$1.12/MWh)<br><b>= \$0.01 billion</b> |
| <b>Step 3 Estimate hedged gross margin by adding open gross margin to mark-to-market value of energy hedges</b> | Open gross margin: \$5.20 billion<br>+ MTM value of energy hedges: \$1.13billion + \$0.62billion + \$0.01 billion<br><b>Estimated hedged gross margin: \$6.96 billion</b> |                                                                          |                                                                        |

# Appendix

# Exelon Generation 2011 EPS Contribution

\$ / Share

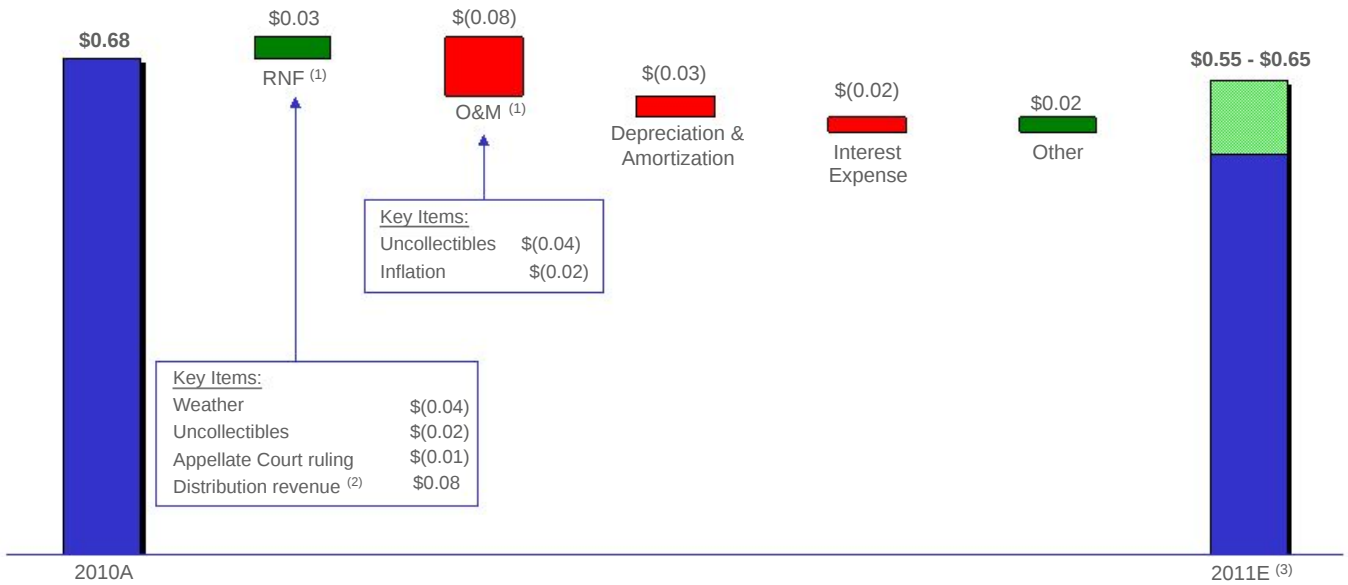

Note: Drivers add up to mid-point of 2011 EPS range.

(1) Estimated contribution to Exelon's operating earnings guidance.

# ComEd 2011 EPS Contribution

\$ / Share

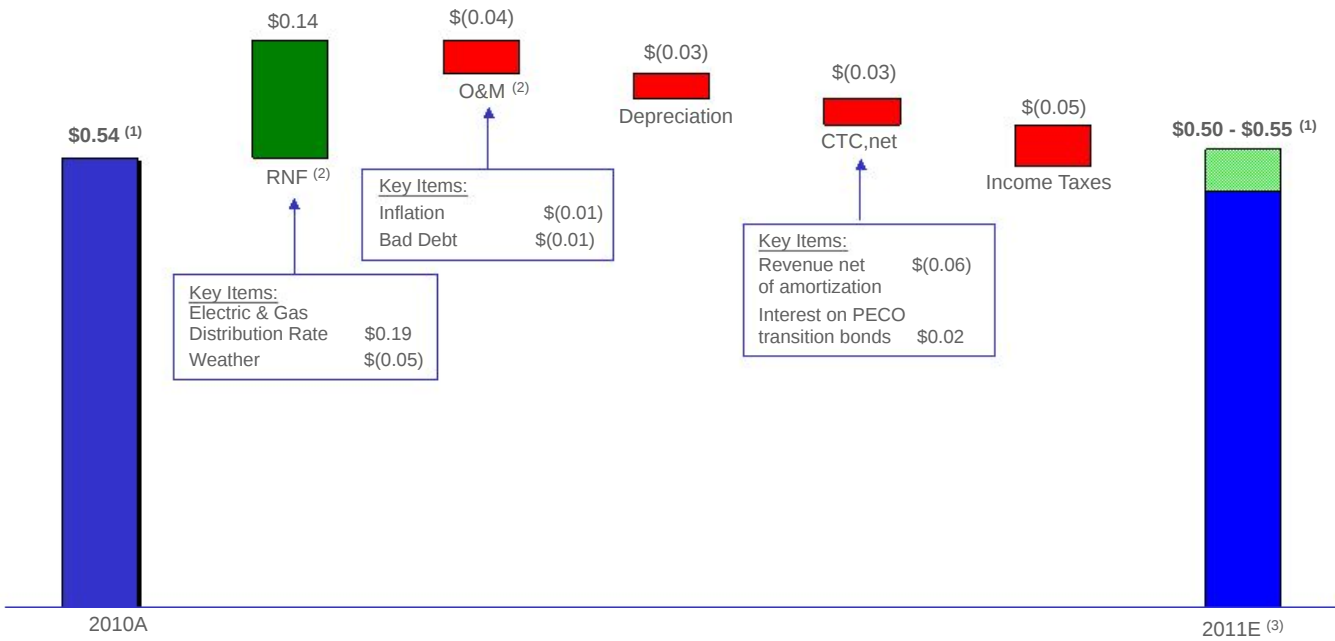

Note: Drivers add up to mid-point of 2011 EPS range.

- (1) Excludes estimated impact of Rider EDA (Energy Efficiency and Demand Response Adjustment) of +/- \$0.05/share. 2010 net income includes a one-time benefit for collections of under-recovered 2008 and 2009 bad debt costs, as provided by the uncollectible expense rider approved by the ICC in February 2010. Going forward, the rider provides for full recovery of all bad debt costs.
- (2) Distribution rate case currently pending, new rates will be effective in June 2011. Earnings guidance assumes mid-point of ComEd's requested revenue increase.
- (3) Estimated contribution to Exelon's operating earnings guidance.

# PECO 2011 EPS Contribution

\$ / Share

Note: Drivers add up to mid-point of 2011 EPS range.

(1) Excludes preferred dividends.

(2) Excludes items that are income statement neutral and estimated impact of energy efficiency and smart meter costs recoverable under a rider of \$0.10/share.

(3) Estimated contribution to Exelon's operating earnings guidance.

# Key Assumptions

|                                                | 2009 Actual | 2010 Actual | 2011 Est. <sup>(3)</sup> |

(1) Excludes Salem.

(2) Weather-normalized retail load growth.

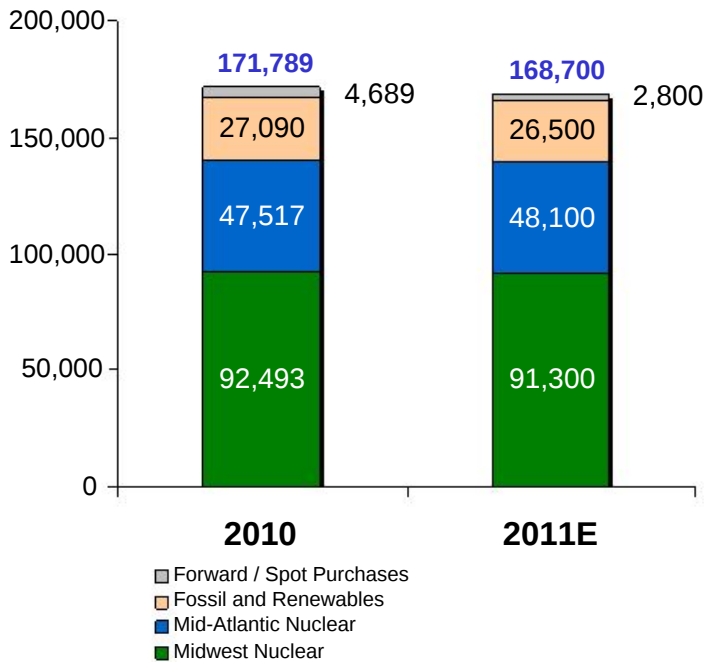

(3) Reflects forward market prices as of December 31, 2010.

Note: The estimates of planned generation do not represent guidance or a forecast of future results as Exelon has not completed its planning or optimization processes.

# Total Portfolio Characteristics

Expected Total Supply (GWh)

Expected Total Sales (GWh)

Note: The estimates of planned generation do not represent guidance or a forecast of future results as Exelon has not completed its planning or optimization processes.

# Refueling Outage Schedule

Note: Data includes Salem. Net nuclear generation data based on ownership interest. The estimates of planned generation do not represent guidance or a forecast of future results as Exelon has not completed its planning or optimization processes.

## Nuclear Refueling Cycle

- All Exelon owned units on a 24 month cycle except for Braidwood U1/U2, Byron U1/U2 and Salem U1/U2, which are on 18 month cycles
- Average Outage Duration (2009-10): ~29 days <sup>(1)</sup>

## 2011 Refueling Outage Impact

- 12 planned refueling outages, including 2 at Salem; Clinton outage was moved from spring 2012 to fall 2011
- 6 refueling outages planned for the Spring and 6 refueling outages planned for the Fall

<sup>(1)</sup> Excludes Salem.

# ComEd 2010 Rate Case Update

(ICC Docket No. 10-0467)

## ComEd Surrebuttal (1/3/11)

- \$326M increase requested
- 11.50% ROE / 47.28% equity ratio
- Rate base \$7,349M
- 2009 test year with pro forma plant additions through 6/30/11

## ICC Staff Position

- \$116M increase proposed in Dec 2010 rebuttal testimony
- 10.00% ROE / 47.11% equity ratio
- Rate base \$6,602M
- Pro forma plant additions and depreciation reserve through 12/31/10

## Reconciliation of ComEd Request to ComEd Surrebuttal

| \$ millions                             |                |
|-----------------------------------------|----------------|
| <b>ComEd Original Request (6/30/10)</b> | <b>\$ 396</b>  |
| Adjustments:                            |                |
| Bonus Depreciation                      | (14)           |
| Pro forma plant adds/O&M update         | (4)            |
| Errata in Initial Filing                | (12)           |
| Reduction to Reg Asset Amortization     | (8)            |
| Other Items                             | (4)            |
| <b>ComEd Rebuttal (11/22/10)</b>        | <b>\$ 354</b>  |
| Adjustments:                            |                |
| New Bonus Depreciation                  | (22)           |
| Pro forma plant adds/O&M update         | (4)            |
| Reduction to AMI/Other                  | (2)            |
| <b>ComEd Surrebuttal (1/3/2011)</b>     | <b>\$ 326*</b> |

\* ComEd request does not reflect Appellate Court decision relating to depreciation reserve, which we estimate would have a \$85M reduction to revenue requirement

Note: See slide 17 for ComEd rate case key dates

# ComEd Customer Usage Breakdown

## Customer Usage by Revenue Class

## Top 380 Customer Usage by Segment

|                                           |     |
|-------------------------------------------|-----|
| Manufacturing                             | 52% |
| Government                                | 13% |
| Health & Educational Services             | 12% |
| Finance, Professional & Business Services | 11% |
| Trade, Transportation & Utilities         | 9%  |
| Leisure & Hospitality                     | 3%  |

Limited survey of select Large C&I customers has indicated an increase in production via longer production runs and additional shifts due to improved economic conditions for manufacturing-based customers, especially in the steel and transportation sectors, along with data center expansions.

(1) Reflects FFO / Debt, Interest Coverage and Debt / Cap ratios as calculated by S&P.

(2) Reflects S&P Target Range. See slide 41 for reconciliations to GAAP.

(3) FFO/Debt Target Range reflects Generation FFO/Debt in addition to the debt obligations of Exelon Corp.

(4) Current senior unsecured ratings for Exelon and Exelon Generation and senior secured ratings for ComEd and PECO as of January 21, 2011.

# Metric Calculations and Ratios

## FFO Calculation:

Net Cash Flows provided by Operating Activities  
 +/- Change in Working Capital  
 + Other Non-Cash items <sup>(1)</sup>  
 - AFUDC/Cap. Interest  
 - Decommissioning activity  
 - PECO Transition Bond Principal Paydown

= FFO

## FFO / Debt:

$$\frac{FFO}{Adjusted\ Debt^{(2)}}$$

Adjusted Debt:  
 LTD  
 + STD  
 - PECO Transition Bond Principal Balance  
 + Off-balance sheet debt equivalents<sup>(3)</sup>

= Adjusted Debt

## Interest Coverage:

$$\frac{FFO + Adjusted\ Interest}{Adjusted\ Interest}$$

Adjusted Interest:  
 Net Interest Expense  
 - PECO Transition Bond Interest Expense  
 + AFUDC & Capitalized interest  
 + Interest on Present Value (PV) of Operating Leases  
 + Interest on Imputed Debt Related to PV of Power Purchase Agreements (PPA)

= Adjusted Interest

## Debt / Cap:

$$\frac{Adjusted\ Debt^{(2)}}{Adjusted\ Capitalization}$$

Adjusted Capitalization:  
 Total shareholder's equity  
 + Preferred Securities of Subsidiaries  
 + Adjusted Debt<sup>(3)</sup>

= Adjusted Capitalization

(1) Reflects depreciation adjustment for PPAs and operating leases and pension/OPEB contribution normalization.

(2) Uses current year-end adjusted debt balance.

(3) Metrics are calculated in presentation adjusted for debt equivalents for PV of Operating Leases, PPAs, unfunded Pension and OPEB obligations (after-tax) and other minor debt equivalents.

## GAAP to Operating Adjustments

- **Exelon's 2011 adjusted (non-GAAP) operating earnings outlook excludes the earnings effects of the following:**
  - Mark-to-market adjustments from economic hedging activities
  - Unrealized gains and losses from nuclear decommissioning trust fund investments to the extent not offset by contractual accounting as described in the notes to the consolidated financial statements
  - Significant impairments of assets, including goodwill
  - Any changes in decommissioning obligation estimates
  - Costs associated with ComEd's 2007 settlement with the City of Chicago
  - Financial impacts associated with the planned retirement of fossil generating units
  - Other unusual items
  - Significant changes to GAAP
  
- **Operating earnings guidance assumes normal weather for full year**
  
- **O&M reconciliation:**
